COMBINE TO REVOLUTE.

Cientificos Back of Reyes and Diaz.

Secret Service Agents Under Madero Learn of Plot Under Way.

Junta Said to Have Been Established at San Antonio, Well Financed.

Plan Unification of Factions to Quasi Madero from Office Just Won.

(BY DIRECT WIRE TO THE TIMES.)

LAREZ (Mex.) Oct. 4.—[Exclusive Dispatch.] Secret Service agents of the Mexican government at this point declare their belief in information from Mexico City to the effect that a Mexico City paper declares former President Diaz and Gen. Bernardo Reyes are planning a revolution in Mexico, with headquarters at San Antonio, Tex.

Reyes' Cretel is known to have been in San Antonio in connection with the revolution. It is stated positively by El Pais in Mexico City that President Madero of the Mexican Republic is in San Antonio, and it is believed that Reyes has been in touch with him.

Cretel was the closest friend and advisor of President Diaz, and one of the leaders of the Cientificos, of which Llanos, Carral, Landu, Escandon and others were also leaders. This would indicate that the Diaz, Cientificos and Reyes elements are getting together.

The campaign against the trouble-

makers in Southern Mexico is being pushed strenuously, now that the election is over, and no mercy is to be shown.

It has been decided by the Cabinet that some of the subordinate officers of the Morales rebellion may be pardoned, but that Zapata and his chief leaders cannot have any such consideration and that they will have to surrender unconditionally if they surrender at all and be held for trial. The other men will be pardoned if they surrender their arms at once.

SHIFTS IN COMMANDS.

Minister Alberto Garcia Grandos states that Almazan probably will go to the United States to study. When asked if that meant the young rebel would have to leave Mexico, the Minister replied that it was "something like that."

Mr. Garcia added that Felipe Morales would be made second in command of State troops in Mexico and Romulo Figueroa would occupy a like position in the State of Guerrero. The government will send Gen. Eduardo Paz of the regular army as jefe de armas to the State of Chiapas. Pascual Aranco will be given the command in some of the southern States against trouble-makers. He was Madero's principal general at Juarez.

REYES JUNTA FORMED AT SAN ANTONIO, TEX.

(BY DIRECT WIRE TO THE TIMES.)

SAN ANTONIO (Tex.) Oct. 4.—[Exclusive Dispatch.] The supporters of Gen. Reyes, who fled from Mexico to San Antonio, have formed a junta at San Antonio to promote his campaign to overthrow Francisco I. Madero and win for himself the Presidency of Mexico. This junta here seems well supplied with money from the Old Cientifico group, and it is reported that Gen. Reyes is coming here personally to direct the movement.

The plan is to unite all the disaffected elements in Mexico and take the field against Madero. It is understood that the men who grew rich under the Diaz regime are willing to back Reyes with all the money he needs.

Owing to the activity of the Federal government agents the junta here is working very secretly. Reyes will have much difficulty in promoting his revolutionary propaganda from San Antonio, due to the fact that soldiers are constantly patrolling the border. Gov. Colquhoun is also recruiting three companies of Texas rangers to assist in this work.

The instructions to the Federal gov-

PORTS FALL UNDER FIRE

Warships of Italy Shell Tripoli.

Bombardment Begins Tuesday, Ceases at Night, Resumes on Wednesday.

Garrison Returns Shots, But Fails to Do Damage to Enemy's Vessels.

Second Division of Fleet to Attack Benghazi and Derna This Morning.

(BY A. P. NIGHT WIRE TO THE TIMES.)

JERBA (Tunisia) Oct. 4.—Tripoli has been bombarded twice by the Italian fleet. The first shot was fired shortly after 3 o'clock yesterday afternoon. Shelling was resumed early today, after a quiet night.

There was a steady but slow fire from the warships until dusk last evening, and shots also came from the forts in the town. The French steamer Tafana took a designation from Derna to the scene of hostilities. Among the party was the French Consul-General H. Lvon, who made several ineffectual attempts to land.

The Tafana was stopped about ten miles from Tripoli by a boat from the cruiser Varese, which ordered her to return, but she remained more than an hour, creeping in closer to the blockaded town.

The white buildings of Tripoli could be plainly seen and the whole field of operations was unfolded before the watchers. Officers of the Varese explained that the bombardment had been delayed because Admiral Aubrey, commander of the Italian fleet, had received a request from the Tripoli garrison for another day of grace and gave the garrison an extra few hours.

There was no sign of life in the city, which appeared deserted, but the Turkish flag flew from the castle and forts. The first shots were directed toward Charachetti fort and later Kerkerche fort was shelled.

As the shells burst over Tripoli, the garrison seemed to awaken. It returned the fire with vigor and energy. A heavy cannonade was kept up on both sides for a few minutes and then firing became desultory. So far as could be seen, no warship was hit.

Vice-Admiral Faravelli, at 4 o'clock ordered his ships to cease firing to permit the town to surrender, but no sign was given and after a few minutes the shells began again.

DESTRUCTION BEGINS.

This time great havoc was wrought. Fortifications were razed, the forts suffered severely and the lighthouse to the northwest was destroyed by shells from the Garibaldi. There was no means of knowing what the loss of life was in Tripoli, but ample opportunity was given the defenders to escape.

When the Tafana left the scene no landing had been attempted by the Italians and it was feared that at night the town would be pillaged by nomad Arabs, who had been hovering in the vicinity for days.

The first division of the Italian fleet under Admiral Faravelli resumed the bombardment early today. The Turkish garrison occupied a position behind the forts and responded with a few shells which fell short.

The Italian commander endeavored to avoid damaging private dwellings, but some of them were destroyed, and the Governor's palace and the port area in ruins. The consulates and churches have not been damaged.

MORE FIRING TODAY.

The second division of the fleet, under Vice-Admiral Thaon Di Revel, has approached close to Benghazi and Derna. A bombardment of these ports, it is understood, has been ordered to begin tomorrow. It is denied that bluejackets will land soon. Such a landing may be decided upon after the arrival of the expeditionary corps.

Before commencing the bombardment of Tripoli the Italian squadron moved all mines and made a careful examination of the hydrographic chart to ensure safety to the coming transports. This operation lasted several days and probably was the real reason for the delay in the bombardment.

Four Italian officers have come to Derna and are proceeding overland toward Tripoli, on a reconnoitering expedition as the Arabs are expected to offer stubborn resistance to the occupation of the Vilayet.

TRIPLE ALLIANCE SAID TO BE BEHIND ITALY.

(Continued on Second Page.)

SENT TO THE PENITENTIARY.

Two Officials of the Western Federation of Miners Are Convicted of Attempting Arson.

LEAD (S. D.) Oct. 4.—[Exclusive Dispatch.] Emmet O'Grady, organizer of Western Federation of Miners today pleaded guilty of arson in the fourth degree in the attempt to burn the Homestake Cyanide plant. He was sentenced to serve two years.

John W. Butler, a solicitor for the Western Federation, convicted of arson in the third degree last week, was today sentenced to serve four years. The crimes occurred in April, 1910.

Other convictions of higher officials in the federation are expected.

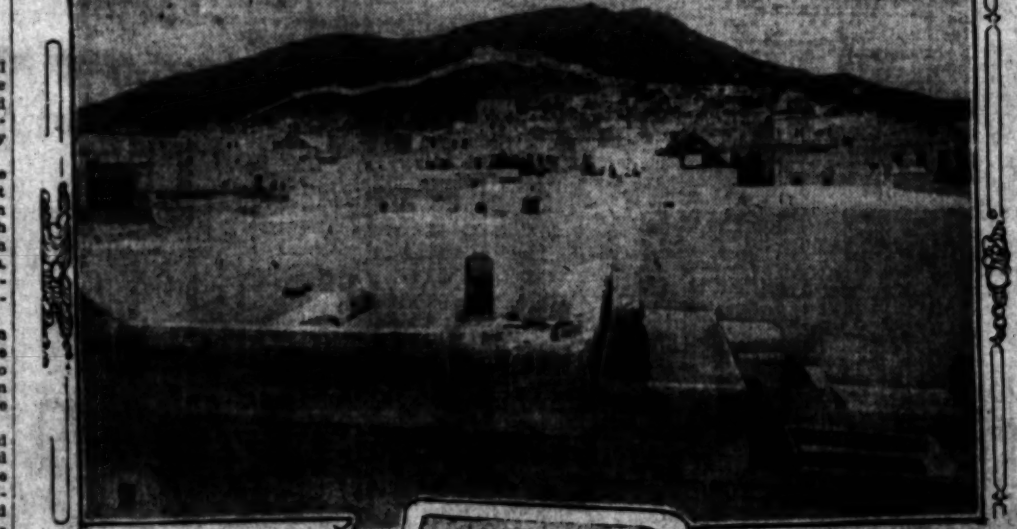

GOES TO SAN QUENTIN.

STOCKTON (Cal.) Oct. 4.—Mrs. S. E. Knight, who was charged with performing an illegal operation and who was accused by the officers of being guilty of several hundred similar offenses, pleaded guilty this afternoon and was sentenced by Judge J. A. Plummer to serve four and a half years in San Quentin. Judge Plummer stated the plea of guilty entitled her to a little consideration, but the fact that her offenses were coolly and deliberately committed robbed her plea of much of its claim to consideration.

Scenes and Figures in Turco-Italian War.

Admiral Aubrey. Vice Admiral Backman Pashe.

General view of Tripoli.

Hakk Bey. Gen. Spingardi.

Belaguered African City

is shown in the center photograph. Of the other photographs, Buckman Pashe is Vice-Admiral of the Turkish fleet; Hakk Bey is in command of the Turkish soldiers; Gen. Spingardi is commander of the Italian army and Admiral Aubrey is at the head of Italy's Mediterranean squadron.

Violence.

STRIKERS FIRE VOLLEYS AT RAILWAY EMPLOYEES.

Three Men Injured in Hamburg, S. C., One Probably Fatally and a Number Wounded in Spring Valley, Miss.—Turbulent Scenes Enacted in McComb City Where Ten Companies of Troops Are on Guard.

(BY A. P. NIGHT WIRE TO THE TIMES.)

AGUSTA (Ga.) Oct. 4.—While a Georgia and Florida freight train was passing through the southern yards at Hamburg, S. C., just across the river from Augusta today, strikers attacked the strike bearing crew, seriously injuring two and perhaps fatally injuring a third.

In an exchange of shots with Sheriff Smith and two deputies tonight at Water Valley, Miss., a number of the special force of guards, stationed at the Water Valley shops of the Illinois Central road were wounded. The wounded men were carried within the shop enclosure.

FATALLY WOUNDED BY STRIKER'S BULLET.

(BY A. P. NIGHT WIRE TO THE TIMES.)

HOUSTON (Tex.) Oct. 4.—Four guards employed in the Southern Pacific shops were fired upon at midnight by unidentified persons. One guard named Tullie was struck by a bullet and it is believed to be fatally wounded. The other guards were uninjured. The men, who fired the shots, escaped.

SCENES OF VIOLENCE IN MISSISSIPPI TOWN.

(BY A. P. NIGHT WIRE TO THE TIMES.)

McCOMB CITY (Miss.) Oct. 4.—

(Continued on Sixth Page.)

WYOMING IS ASSURED

Mr. Taft Has Pledged of That State.

President Promises Swift Action in Future By the Interior Department.

Awakens Great Enthusiasm by His Speech to Voters Gathered in Laramie.

Witnesses Broncho Busting Frontier Day Celebration in Cheyenne.

(BY A. P. NIGHT WIRE TO THE TIMES.)

RAWLINS (Wyo.) Oct. 4.—President Taft spent the day in Wyoming and left Rawlins, after a ten-minute stop tonight, for the Lake City. During the day the President stopped at Cheyenne and Laramie.

Gov. Carey, who accompanied the President across the State, told Mr. Taft he would be backed by the Wyoming delegation at the next public convention and receive the electoral vote of the State in November, 1912. This assurance was of special interest because Gov. Carey was elected as an independent and against the candidate of the so-called regular machine.

Another item of political interest today was the receipt by the President of a telegram announcing that the insurgent Executive of California would meet the Taft train at the California line and accompany it through the State. The Governor will be accompanied by a party of State officials.

ENTHUSIASTIC APPLAUSE.

In his speech at Laramie President Taft called out enthusiastic applause by declaring that he was going to do it that the Federal Government was going to do it after on all matters affecting the people's health.

TO CUT RED TAPE.

Mr. Taft said that he was ready of his trip through the West, and the recent tour of Secretary of the Interior Fisher and Secretary of Agriculture Wilson, would be to stimulate the departments at Washington to rid themselves of "that red tape and delay which is the resort of those who are timid in administering the law."

Senator Warren promised the President today to support the pending treaties in the Senate. He declared the President's speeches on the subject unquestionably had met the approval of the people.

EARNING A PARDON.

Life Term in Nevada is Permitted to Travel Unaccompanied and Does Not Try to Escape.

(BY DIRECT WIRE TO THE TIMES.)

RENO (Nev.) Oct. 4.—[Exclusive Dispatch.] Riley Wooten, serving a life term in the Nevada State Prison for murder, enjoyed a thirty-five-mile train ride yesterday unaccompanied by any prison official and at the end left the train at a small station this side of Carson City and reported to Warden Baker.

Wooten is employed on the prison road camp and at the start gave his word of honor to Warden H. Baker that he would make no attempt to escape. Today a machinist was needed to operate a steam roller used on the road, the former engineer having been pardoned. The guard telephoned to the road camp overseer to give Wooten a ticket and instruct him to return to the old camp near Carson. Wooten followed instructions and although afforded every opportunity to leave the train he remained true to his trust and reported for duty at the end of his trip.

COUNTLESS ARRESTED.

MARION CITY (Iowa) Oct. 4.—[Exclusive Dispatch.] Countess Beatrice de Bavanda, widow of Count Carlos de Bavanda of Spain, the latter dying twelve years ago, was thrown in jail here last night on the charge of "boot-legging." She gave cash bond of \$50 for her appearance in court one week from today. She has been living here since June.

SHAKE HANDS.

Mr. Taft shook hands with "bushers" with Charlie Brown, one of his daughters who appeared in several events.

The review of troops before the frontier show brought out several thousand soldiers from Fort D. Russell. In introducing Mr. Taft to an audience in the opulent Senator Warren said that he had come through the fight for "respectable schedule K," and that monstrosity, the cotton bill, "still smiling, serene and with shoulders unshaken. The President

**DANGER AHEAD
FOR THE TURKS.**

People Ripe for Great Revolt
Against Government.

Berlin Banker Gives Views
on Present Situation.

Thinks Powers Earnestly Set
on Localizing War.

(BY DIRECT WIRE TO THE TIMES.)
BERLIN, Oct. 3.—[Exclusive Dispatch.] A prominent banker of Berlin, who refused to allow his name to be used, but whose eminent position in the banking world, intimate acquaintance with Turkey, and experience in questions of foreign policy, give his opinion weight, is one of those who holds the theory that a vast secret movement against the Turkish government may be secretly going on among the aroused people of Turkey and that the real danger is in the Balkan situation, and that this is the opinion of Germany in close touch with Turkish affairs.

POWERS WANT PEACE.
"I am convinced," he said to the correspondent of the Los Angeles Times today, "as the strength of my information, that the great powers, without exception, are sincerely striving to localize the war and hasten a termination."

"German financiers who are interested in the affairs of the Orient are almost to believe that they will succeed, at least to the extent of holding the minor Balkan powers in check. Turkish forces in Tripoli are much smaller than in formerly, and Italy should be able to get fairly firm foothold there within a week. Then the powers will probably try to arrange peace on the basis of a cash indemnity to Turkey."

ONE SERIOUS DANGER.
"There is, however, in my judgment, one serious element of danger, known Turkey intimately, the country districts as well as the cities; still, a matter has been a western European lives in Turkey, he never has understood what is going in the mind of the people. The gulf between the two races is too deep. It is impossible to say whether the new, with their religious and political ideas, are not already taking measures to avenge their country's humiliation and are not secretly striving for one of their chief aims, the movement of which are at such a distance and extent that no government is standing against them, as was shown the time of the last revolution."

AGITATION IMMINENT.
"One of these agitators may come a head almost every night. Although progress in Constantinople are not aware of its imminence, this is the peril. In such a contingency the on at the head of affairs would be kept along by the sea. As they are powerless to reach Italy, they could be forced to approach the gulf either by attacking Greece and leaving Thessaly, or by mobilizing Bulgaria. The ultimate consequences of such action none can guess. Our best safeguard as yet the arrangement with which the powers are seeking to prevent it."

**URKISH COAST GUARD
BOAT MEETS DISASTER.**

(BY A. P. NIGHT WIRE TO THE TIMES.)
LONDON, Oct. 3.—A special from Constantinople says an Italian torpedo boat destroyed a coast guard boat that was firing the British flag off Moudah, in the Red Sea. The boat was wrecked, it is understood for the Turkish navy, but had not been delivered when attacked.

**RANCE NOW WILLING
TO OFFER MEDIATION.**

(BY A. P. NIGHT WIRE TO THE TIMES.)
PARIS, Oct. 3.—Baron de Bouteville de Constantine wrote to Premier Leger on Sunday last suggesting that France, acting under Article II of the Hague conference, should offer good offices to end the conflict between Italy and Turkey. The Premier has now replied that the French government is ready to offer mediation.

DD FELLOWS DRILL.

Two thousand persons witness the competition in Santa Cruz-Army Officers Are the Judges.

(BY A. P. NIGHT WIRE TO THE TIMES.)
SANTA CRUZ, Oct. 3.—Two thousand persons witnessed the drill of the 10,000 P. degree teams. The drill was United States army officers. The results will be announced the day after tomorrow. Brig-Gen. J. E. Ritter of Santa Cruz, was elected president of a military council, patriarchs military Gen. C. de Alameda, co-president; Maj. E. Roca, San Francisco, secretary, and Maj. C. E. Redfield, San Francisco, treasurer. Teams were entered in the drill from San Francisco, Sacramento, San Diego, Fresno, Santa Ana, Santa Ana and Berkeley.

**TOO "MUCH"
ANDERSON.**

Forty-fifth Man of That Name in Jamestown Has It Doctored.

(ASSOCIATED PRESS DAY REPORT.)
JAMESTOWN (N. Y.), Oct. 3.—"My mail is usually read by three or four persons in town before it reaches me, and I want my name changed," is John Anderson's plea to the Supreme Court. Jamestown's population is made up largely of Swedes and there are forty-ah John Andersons in the city directory. Anderson's plea will be granted by giving a middle initial, which will differentiate him from the other forty-five.

PORTS FALL.

(Continued from First Page.)

which are described as being circulated with the intention of misguiding public opinion concerning incidents between Italy and Austria and of dissensions among the powers regarding their attitude toward Italy.

As a matter of fact, it is said, what is transpiring was arranged among the States in the triple alliance, with the adhesion of France and Great Britain, who are bound by the agreement of 1901 to support Italy, or at least to be neutral whenever she decides to occupy Tripoli.

It is even hinted that negotiations with Austria and Germany which preceded the present action of Italy led to a basis for the renewal of the triple alliance, which will expire in 1914, when, to the already existing clauses, another will be added regarding the protection of Italy in her position in North Africa.

The military attaches at the embassies here are following with interest the preparations of the Italian expedition to Tripoli. The first contingent of about 10,000 men was ready to start yesterday, but was delayed because the officials desired to be assured against surprise at sea.

Italian ships are patrolling between Sicily and Malta and between Malta and the coast of Africa. The Italian torpedo boats up to last night when they were chased out of the patrol zone managed to escape under darkness and aided by storm weather.

ITALY'S PLANS.
Italy purposes to land nearly 40,000 men within a week and to begin operations immediately. The military experts consider the armament and equipment of the troops perfect. This equipment includes provisions of all kinds, landing boats, movable camp and field hospitals with accommodations for thirty thousand patients, besides hospital ships.

The report that Montenegro is mobilizing her army is officially denied. The 500 Turkish prisoners in Italy will be assembled in the large barracks near Caserta.

**EXPLAINS REPORT OF
PREMATURE LANDING.**

(BY A. P. NIGHT WIRE TO THE TIMES.)
TARANTO (Italy), Oct. 3.—An officer from the Italian torpedo-boat destroyer Alpino, who landed here late today, gave an explanation of the report so insistently circulated that the Italians had landed at Prevesa on September 25, the day before war was declared.

Capt. Biscaretti, commander of the section of the fleet of torpedo-boats sent by Vice-Admiral the Duke of the Abruzzi to investigate the surrounding for Prevesa and see if the enemy's ships were there, dispatched two torpedo-boats to inspect the coast north of Prevesa. One of the boats landed, disguised as a fishing boat, and climbed the mountain near the town, from the top of which, with the aid of a strong telescope, was able to see inside the harbor of Prevesa and distinguish the Turkish torpedo-boat flotilla there.

Later, Capt. Biscaretti ordered his destroyers to open fire against the Turkish torpedo-boats at five miles. The shots caused a panic among the Turkish crews, who threw themselves into the sea.

Meanwhile the Italian commander expected an attack from the fortifications of Prevesa, but they were silent. He feared a trap and ordered the destroyers to return to Prevesa while the destroyers inspected the port.

Capt. Biscaretti himself commanded the Corazziere, which cautiously approached under the batteries, but there were no signs of life.

The Corazziere entered the harbor and captured a Turkish yacht. Sailors from the wrecked torpedo boat, having reached the docks by this time, gave the alarm. The destroyer took the yacht and started out of the harbor when the sailors from shore rallied and fired a volley. The Corazziere returned the fire, shelling several houses and the docks, killing or wounding many of the attacking party, and causing indescribable panic among the sailors.

The destroyer's operations within the harbor lasted forty minutes and she passed through the channel, with the yacht in tow, without a shot being fired from the batteries or fortifications.

**TURKISH WOMEN GIVE
JEWELS TO AID CAUSE.**

(BY A. P. NIGHT WIRE TO THE TIMES.)
LONDON, Oct. 4.—The Chronicle's Constantinople correspondent sends the following dispatch:

"The antagonism against the Committee of Union and Progress, the members of which are held responsible for the condition in which Turkey found herself at the outbreak of the war, is growing. Many influential people are refusing aid to the government so long as the 'tyrannical way' of the committee continues."

"A new committee calling itself the National Defense Committee has been formed and is sending circulars throughout the country. The chief cause of complaint against the Committee of Union and Progress are ignoring the warning of the Governor of Tripoli concerning the condition of the defense and the intention of the Italians."

The Chronicle's Saloniki correspondent says:

"General mobilization of the army has been ordered and the enrollment of volunteers is proceeding rapidly. The Redifs, who are being summoned to return to the colors, are responding with enthusiasm."

The Chronicle's correspondent at Constantinople says:

"The Turkish women are displaying great patriotism and are offering their money, jewels and precious carpets to help their country's cause. 'A high Ottoman official informed me that never before has Islam been so united front and that never before has England had such a magnificent opportunity to win by judicious policy the friendship and only of the Ottoman people, but of the whole Islamic world.'"

The starting report has reached the Constantinople correspondent that the Italian and Turkish fleets are engaged in a fierce battle north of Mytilene. Similar information has reached the Austrian office here.

A new cabinet has just been formed, but it has no stability and no progress and therefore will be short lived.

The newspaper Ildan reports that an Italian cruiser has been sunk by a Turkish torpedo-boat off Tripoli.

**DARDANELLES FLEET
ORDERED OUT TO SEA.**

(BY A. P. NIGHT WIRE TO THE TIMES.)
LONDON, Oct. 4.—A news dispatch from Constantinople tonight says the

Baron Rosen.

Of Russia, who, returning yesterday to Russia, said in thirty-five years he had never been misquoted by a reporter.

**NEVER ONCE
MISQUOTED.**

Baron Rosen, Returning to Russia, Says American Reporters Are Exact.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Oct. 4.—[Exclusive Dispatch.] Baron Rosen, for thirty-five years intimately associated with the international politics of Russia and America, and recently ambassador to the United States, called on the Mauretania today for his home to take his place as a member of the Council of the Empire. "I am going to quit diplomacy and become a politician," he said, with the grace that always made him a favorite. "I want to say that during all of the thirty-five years I have been connected with public life in this country I was never misquoted by an American reporter."

Turkish fleet in the Dardanelles has been instructed to put to sea. The report has been received that an Italian warship was sighted off Saloniki and is said to have fired on Kara Buhan Fort.

JURY DISAGREES; SENT BACK.
San Francisco Judge Refuses to Accept Report as Final; Lectures Taxpayers on Their Duties.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, Oct. 4.—[Exclusive Dispatch.] Refusing to accept the announcement of a settlement of the jury in the case of Mrs. G. M. Sperry against the Southern Pacific Railroad Company as final, Judge William C. Van Fleet today lectured the jury on their duties.

The jury retired at 3 o'clock yesterday afternoon and remained in seclusion all night. Ballot after ballot was taken but according to the report of Foreman McCarthy, there was no change.

In refusing to discharge the jury, Judge Van Fleet remarked that he did not see how there could be a failure to reach a verdict if fair and unbiased consideration was given the fact published, and warned the juryman against allowing any personal feeling to weigh with them. The jurors were again sent out.

The action is for damages in the sum of \$15,000 for the destruction of timber on the property of the plaintiff in Placer county. She and others testified that debris collected all along the track of the defendant corporation. This debris took fire, owing to the alleged carelessness of the railroad and the flames swept through the timber.

The defense of the railroad was that trains had started the fire.

IMPRESSES A WOMAN.

Busy Portland Policeman Musters Her in Service to Take Two Children to Jail.

(BY A. P. NIGHT WIRE TO THE TIMES.)
PORTLAND (Or.) Oct. 4.—Traffic Patrolman Richards of a well-dressed woman, in dealing with a diminutive pair of prisoners yesterday afternoon. The woman rose fully to the occasion.

Richards captured Israel Rader and Rebecca Halper, each aged three years, in the midst of a traffic congestion on Washington street. With squirming youngster on either side, Richards made his way to the sidewalk, and his eye alighting on the woman, addressed her.

"Madame, I am going to bother you, but in the name of the city of Portland, I command your services as a peace officer, and direct you to take these prisoners to the City Jail."

Without a murmur of protest she took the youngsters in hand and escorted the pair to the jail.

CUPID'S ROCKY PATH.

SACRAMENTO, Oct. 4.—Raymond Potter of Stockton and Dorothy Crase of Grass Valley met in this city today to get married. Dorothy was only 17 years old, but she was armed with a written consent purporting to have come from her mother.

County Clerk Frund refused them a license. Finally communication was opened with the mother, who had signed the permit, and the mother took the matter to the County Clerk of Nevada county. Before the clerk made any move, the mother acknowledged her consent for the County Clerk of Sacramento county to issue the license.

The Sacramento County Clerk thereupon made a special trip to his office tonight and gave the young people their license.

**MINISTER OF PANAMA TO
WASHINGTON RECALLED.**

(BY A. P. NIGHT WIRE TO THE TIMES.)

PANAMA, Oct. 4.—President Arosemena states that at a Cabinet meeting, yesterday afternoon it was decided to recall the Panama Minister to the United States. Dr. Belisario Porras, as the government was not satisfied with his services. The foreign secretary, Dr. Frederic Boyd, voted against the recall.

Members of the National Liberal directory state that they consider the action of the Cabinet in recalling Porras the result of the political intrigues of his enemies, who fear the presence of Porras in the American capital may interfere with their plans for the re-election of Arosemena.

President Arosemena states he will make use of the permission granted by the Supreme Court and relinquish the Presidency next February and will then be a candidate for re-election. The constitution of Panama provides that no citizen may be a candidate for the Presidency "who has discharged the duties of the office within the six months preceding the day of election."

**PIRRAS ALLEGES
DARK INTRIGUE.**

WASHINGTON, Oct. 4.—Political trickery, spying of the Panama government on its own legation here and chicanery designed to cripple his candidacy for the Presidency, were alleged by Dr. Belisario Porras today to

be reasons underlying his recall from Washington. Dr. Porras attributed the whole affair to a political intrigue of President Arosemena.

Dr. Porras said Jose G. Battalla, a close friend of President Arosemena, had been sent to Washington as his attaché. Later came a young man named Ossa, who had been studying the police system in New York for the Panama government. The latter was made private secretary to Dr. Porras.

A little difficulty between these two men developed whereupon Ossa told Dr. Porras Battalla had been sent here by the Panama President to spy upon the Minister and to learn any possible adverse to him. Battalla was called in and the Minister asked if the charges made by Ossa were true. He denied them.

Dr. Porras said later Ossa and Battalla were seen occupying the same cabin on a vessel bound for Panama. Dr. Battalla had been the confidant of Dr. Porras, the Minister said he believed his every move had been communicated to Arosemena and that he, Porras, was charged with being a traitor because he had married his Costa Rican wife in the midst of the boundary dispute.

Later it was charged he did not have the interest of his government at heart, but he had made a verbal offer to the State Department of the island of Chirico for an American coaling station.

It is likely to be some time before Dr. Porras will leave Washington for Panama. If he should be nominated for the Presidency on the Liberal ticket, the minister said today he would accept.

Imperial Affected.

**IMPORTANT WATER CASE
BEFORE APPEAL COURT.**

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 4.—[Exclusive Dispatch.] The appeal of the Imperial Water Company against the verdict rendered in the United States Circuit Court, at Los Angeles, in favor of the California Development Company, was argued today in the United States Circuit Court of Appeals before Judge John H. Rogers and Mr. J. M. McKimley and S. V. McClure for the California Development Company, and taken under advisement.

In the lower court the California Development Company filed a suit in equity against W. H. Holabird as receiver of the California Development Company, and the company itself. The complaint alleged that in March, 1901, a contract was entered into between La Sociedad de Yrigacion y Fomento de la Baja California and the California company, whereby the Mexican company agreed to deliver water from Mexico and the defendant agreed to deliver all its capital stock to the Mexican company as well as its water rentals. It is alleged further that the complaint, as the receiver of the California Development Company, has expended many thousands of dollars in the construction of irrigation canals and other works.

It is alleged further that on May 16, 1905, without any concession or authority, A. H. Heber, president, and R. T. Perry, secretary of the California Development Company, signed an agreement between the two companies whereby the Imperial Water Company the right to dispose of all its unissued capital stock—about 65,000 shares, valued at \$1,200,000—was transferred to the Mexican company, and that the contract was signed by President Heber without submitting it to the board of directors for approval.

A receiver was appointed if this contract is carried out, damage to the extent of \$300,000 will be inflicted upon the complainant, the California Development Company.

The lower court found that Heber had exceeded his authority, and ordered the contract cancelled. In its opinion the court averred that the Mexican company is not an entity distinct from the California Development Company, and that the scheme of the complainant was to compel the receiver on the public domain in Imperial Valley to pay not only the established rate for water, but to supply the funds to build the entire project, and, in addition, to exact a compulsory exaction of sums, arbitrarily fixed from time to time, as a precedent to furnishing the water.

COMBINE TO REVOLUTE.

(Continued from First Page.)

ment spies here are to enforce very strictly the neutrality laws. There is still pending in the Federal Court a charge against Madero for violating these laws, and his flight into Mexico to take the leadership of his army was inspired by the fact that the Federal officers were after him with a warrant.

It is declared that if Gen. Reyes comes here and attempts to promote a revolution against the constituted authorities in Mexico he will be promptly arrested.

**ANOTHER UPRISING
SAID TO BE COMING.**

(BY A. P. NIGHT WIRE TO THE TIMES.)
MEXICO CITY, Oct. 4.—It is stated that the followers of Dr. Vasquez Gomez and President De la Barra plan to join issues to defeat Pino Suarez in the electoral college.

El Pais today published a telegram from San Antonio, Tex., that the followers of Gen. Reyes and the deposed President, Gen. Diaz have established a junta in that city and await the arrival of Reyes. The telegram permits the inference that a new insurrection is to be begun.

The paper also publishes a dispatch from Juarez that a revolt will be begun against President Gen. Madero, the President-elect, attaches little importance to these reports, but it is understood he is taking measures to keep himself well informed.

Gen. Reyes sailed from Havana for New Orleans yesterday.

Samuel Espinosa de los Monteros, president of the Central Republic Club, is said to be in San Antonio. A cablegram Sunday from Reyes said he was going to San Antonio.

**SOLDIERS IN PURSUIT
OF BANDIT ESCABOZA.**

(BY A. P. NIGHT WIRE TO THE TIMES.)
DOUGLAS (Ariz.) Oct. 4.—A special train carrying fifty-five soldiers left Nogueri, Sonora, this afternoon for Yabali.

The train will stop at Agua Prieta about midnight, where sixty more soldiers under command of Maj. Fuentes will be taken aboard, and the entire command will then proceed to Yabali.

Arriving at Yabali, the soldiers will march to El Tigre, where it is thought they can intercept the bandit Escabozza, who is reported to be on his way to that place with a following of seventy men.

In order that Escabozza's escape to the south may be cut off, forty-five soldiers left Cupmas today and marched to the south to guard all avenues of travel in that direction.

The Mexican authorities are confident that the bandit's capture is but a matter of a day or two.

an agreement between the two companies whereby the Imperial Water Company the right to dispose of all its unissued capital stock—about 65,000 shares, valued at \$1,200,000—was transferred to the Mexican company, and that the contract was signed by President Heber without submitting it to the board of directors for approval.

A receiver was appointed if this contract is carried out, damage to the extent of \$300,000 will be inflicted upon the complainant, the California Development Company.

The lower court found that Heber had exceeded his authority, and ordered the contract cancelled. In its opinion the court averred that the Mexican company is not an entity distinct from the California Development Company, and that the scheme of the complainant was to compel the receiver on the public domain in Imperial Valley to pay not only the established rate for water, but to supply the funds to build the entire project, and, in addition, to exact a compulsory exaction of sums, arbitrarily fixed from time to time, as a precedent to furnishing the water.

"CUT" THE AIR: DELAY TRAIN.

Strikers in Oregon Are Also Reported to Be "Killing" Engines.

San Francisco, Oct. 4.—[Exclusive Dispatch.] Eastbound O.W.R. and N. train number six was delayed here for some time today, after arriving several hours late, by the cutting of the air by strike sympathizers which set the brakes on the whole train. The trick was turned by unknown parties, although the train was closely watched while in the station. Officials in Huntington are calling on the Sheriff here for men as trouble is feared as the result of the employment of Japanese in the yards. It is reported in local railroad circles that engines are being "killed" by strikers on the La Grands division.

experiments be made in the valley on a much larger scale than at present. There were now small experimental rice gardens located at Red Bluff, Biggs and Willow. It is believed rice could be made one of the most profitable crops of the valley adobe lands, there being several rice plantations in the valley producing marketable quantities of rice this season. The land and fund desired will probably be provided.

SLOPE BRIEFS.

Speed Law Delays Suffragettes.

OAKLAND, Oct. 4.—[By A. P. Day Wire.] Miss Margaret Haley, secretary of the Chicago Teachers' Federation, and Miss Leola Hall, an architect, bumped into the speed limit law here yesterday while going to a suffrage meeting in Miss Haley's automobile. Miss Haley was arrested. Miss Haley went to the city prison with her head up and her feet on the ball. Then they cranked up the machine and proceeded more slowly to the meeting, where Miss Haley made a speech.

Costly Lumber Fire.

KALISPELL (Mont.) Oct. 4.—[By A. P. Day Wire.] The last night destroyed the mill of the Northwestern Lumber Company and the planing mill adjoining. Several hundred volunteers formed a bucket brigade and saved the office and lumber yards containing 17,000 feet of lumber. The damage is estimated at \$100,000 partly covered by insurance.

Oregon Will Cruise Again.

SEATTLE (Oct.) Oct. 4.—[By A. P. Day Wire.] For the first time in six years, the battleship Oregon has been ordered made ready for sea. Orders were received at the Puget Sound navy yard yesterday directing that the famous fighting craft and the cruiser St. Louis prepare for a cruise by October 24. The Oregon was recently put in commission as a part of the Pacific reserve squadron after having been rebuilt at a cost of more than \$1,000,000.

Broker Is Denied a Writ.

SAN FRANCISCO, Oct. 4.—[By A. P. Day Wire.] The Supreme Court denied today a writ of habeas corpus sought by H. A. Moss, a broker, arrested for alleged violation of the ordinance prohibiting bucket shops. Moss claimed the ordinance was unconstitutional.

Judge Overrules Own Protest.

SAN FRANCISCO, Oct. 4.—[By A. P. Day Wire.] The well-dressed, thirty-year-old man who yesterday was identified today as Louise Biggs, sitting Judge Judge Lawrence, Judge Dooling acted in compliance with an order of the District Court of Appeals handed down last Monday and said he did so over his own protest, as he believed the matter should have awaited the return of Judge Lawrence.

Lovers' Quarrel; Suicide.

SAN FRANCISCO, Oct. 4.—[By A. P. Day Wire.] The well-dressed young woman who killed herself yesterday was identified today as Louise Biggs, sitting Judge Judge Lawrence, Judge Dooling acted in compliance with an order of the District Court of Appeals handed down last Monday and said he did so over his own protest, as he believed the matter should have awaited the return of Judge Lawrence.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent, or nearly one-quarter, die before they reach one year; thirty-seven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. Frederick D. Rogers, of Chicago, Ill., says: "I have found Fletcher's Castoria very useful in the treatment of children's complaints."

Dr. William C. Bloomer, of Cleveland, Ohio, says: "In my practice I am glad to recommend your Castoria, knowing it is perfectly harmless and always satisfactory."

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

GENUINE CASTORIA ALWAYS Bears the Signature of

BROKEN WORDS TELL WOE TALE.

Bakersfield Wife Shipped to Old Eastern Home.

Sobs Out Story in Kansas City General Hospital.

"He—and Another—Tired of Me—Sent Me Away."

(BY DIRECT WIRE TO THE TIMES.)
KANSAS CITY, Mo., Oct. 4.—(Exclusive Dispatch.) In one of the women's wards at the General Hospital this afternoon Mrs. Charlotte Smith looked out of an open window and sighed. Then she turned to a nurse: "I can't stand it any longer," she whispered. They were the first words that she had spoken of her troubles since she reached Kansas City Tuesday night.

Mrs. Smith is a pretty woman of 34 years and when she stopped on an eastbound train Tuesday night it was natural that the attention of Mrs. Olie Everingham, depot matron, should be attracted to her. As she watched the woman from some severe anguish, Col. J. C. Greenham, who made the examination, said:

To a nurse Mrs. Smith said: "You are a stranger—and I oughtn't to say anything. Only he and some one else put me on the train back home and now—I'll go back to the place where I was born."

From papers in her handbag, she learned her name is in Bakersfield, Cal., and that her husband is an attorney there. W. Byman Smith, she was on her way to Iceland, Me. From a bank book among her possessions it was learned that she has \$500 on deposit in her own name.

BAKERSFIELD CONFIRMS PARTING OF SMITHS.

(BY DIRECT WIRE TO THE TIMES.)
BAKERSFIELD, Oct. 4.—(Exclusive Dispatch.) Efforts to locate Attorney Wyman Smith tonight are unavailing. Smith and his wife came here from Goldfield about a year ago. Mrs. Smith left for the East last Friday. Today Smith asked a rural estate agent to rent his house furnished.

MANUEL'S MEN TAKE OPORITO.

ROYALISTS REPORTED TO BE IN CONTROL THERE.

Madrid Hears That Friends and Followers of the Deposed King Will Establish the Provisional Capital There and the Ex-Ruler Himself is Hourly Expected.

(BY DIRECT WIRE TO THE TIMES.)
MADRID, Oct. 4.—(Exclusive Dispatch.) Dispatches from the Portuguese border state that the Royalists have defeated the Republicans and captured Oporto, where they will establish headquarters and the provisional capital of the monarchy. It is further stated that King Manuel is expected there very soon.

PREDICT MONARCHY.

(BY A. P. NIGHT WIRE TO THE TIMES.)
LONDON, Oct. 4.—Portuguese Royalists declare that the monarchy will be re-established in the northern part of Portugal tomorrow with the anniversary of the revolution that overthrew King Manuel. According to a member of the colony, which has established itself around Mangel at Richmond, cablegrams received today announced that in the greater part of North Portugal were bands of Royalists who occupied Chaves, Guimaraes, Barva and Bazarra.

SHOT FOLLOWS NOW.

From a horseman is fatally wounded in San Francisco Saloon. Puffs to Identify Man Arrested.

(BY A. P. NIGHT WIRE TO THE TIMES.)
FREMONT, Oct. 4.—Fred W. Robinson, a horseman of this city, was shot in the back and probably fatally wounded in a row in a San Francisco saloon today. Eugene Ferguson, who left the place immediately after the shooting, was taken into custody, but Robinson was unable to identify him as his assailant. Ferguson is being held pending an investigation. Robinson was taken to the Central Emergency Hospital, where it was stated that he could not recover.

SHERLOCK HOLMES DEAD.

Scottish Surgeon. Original of the Great Detective of Fiction Passes Away.

(BY NIGHT NEWS REPORT.)
LONDON, Oct. 4.—Joseph Bell, the Scottish surgeon who was the original of the character of Sherlock Holmes, died today at Maunwood, Milton Bridge, Middlethorpe. He was born in Edinburgh in 1827 and was an instructor of Conan Doyle at Edinburgh University. The hobby was the study of mysterious crimes.

FOUR COMPANIES RUSHED TO SCENE.

(BY A. P. NIGHT WIRE TO THE TIMES.)
JACKSON (Miss.) Oct. 4.—Four more State militia companies and a troop of cavalry were ordered to McComb City late today by Gov. Noel.

There are the companies at Jackson, Greenwood, Macon and Shubuta and the cavalry troop at Macon. With their arrival, there will be ten military commands on duty at McComb City.

At 4:30 o'clock Maj. Hoskins, in charge of a military escort reported that the train had reached Magnolia without mishap. It continued to New Orleans under guard of special agents of the road.

The order sending additional troops to McComb City was issued because

STRIKE.

(Continued from First Page.)

tained by the Illinois Central Railroad Company.

It was discovered today that Carl Canton and Truly Curtis, both strikers, were shot and badly wounded during the night while walking near the Illinois Central shops. They were removed to their homes. There is no word to their assailants.

State troops patrolling the streets today curbed the rioting that began late yesterday with an attack on strike-breakers en route south on the Illinois Central.

Col. E. B. Baker of Natches in active command of the troops here, ordered at noon that every member of the National Guard in Natches who failed to join his command this morning be arrested and sent immediately to McComb City. A platoon of Natches troops with machine guns arrived this afternoon.

The departure of the special train with strike breakers originally scheduled to leave for New Orleans at 10 o'clock was delayed on account of a conference between military authorities and railroad officials.

FRIED CHICKEN.

FOR THE STRIKEBREAKERS.

(BY A. P. NIGHT WIRE TO THE TIMES.)
LOUISVILLE (Ky.) Oct. 4.—Strike-breakers employed by the Illinois Central to take the places of shopmen who quit their work here, are particularly about their food. According to local papers, they are even impatient, and yesterday, falling to find fried chicken on the menu of their noon meal, refused to return to work until after an hour's delay when they were promised special delicacies for their supper.

ROADS UNHINDERED.

SMALL CHANCE TO SUCCEED.

"The present railway strike has small chance of being successful far as the workmen are concerned," said Edward Davis, one of the lessees of the Lankershim Hotel, who with his wife, arrived home yesterday from several months' tour of the East.

"Nowhere was there much public sentiment expressed in the strike matter. The railroad did not seem greatly inconvenienced and the feeling was general that the present trouble will be very short-lived," said the boniface.

GUARD PATROLLING OMAHA PROPERTIES.

(BY DIRECT WIRE TO THE TIMES.)
OMAHA (Nebr.) Oct. 4.—(Exclusive Dispatch.) The Union Pacific's ultimatum to the strikers that all must return to work at noon today, or consider themselves discharged, had no effect. Not a striker went back to work in the Omaha shops today.

At Grand Island and North Platte, where the company maintains shops, strikers returned to work. On the other hand, the strikers were augmented by a number of apprentices and helpers who insisted on leaving their work in sympathy with the union.

One carload of strike-breakers reached Omaha from the East and continued on toward St. Paul. Their sleep being attached to the fast mail. Fifteen strike-breakers left the party here and were taken to the shops in Omaha today.

The railroad has sworn in a large number of deputies and the different properties in Omaha and Council Bluffs are being patrolled.

The new \$1,000,000 headquarters under construction and almost completed has guards on alert and no visitors are permitted in the building. Strike-breakers are expected to reach Omaha Thursday.

Vice-President of the International Machinists' Union today announced that 750 men are on strike in the shops in Omaha, this being practically every skilled worker of the unions involved.

HIRING STRIKE BREAKERS FOR UTAH SHOPS.

(BY A. P. NIGHT WIRE TO THE TIMES.)
SALT LAKE CITY, Oct. 4.—With the Oregon Short Line shopmen being of practically unbroken ranks, stouter courage and absolute confidence in the outcome of their strike for recognition, and the railway officials holding to their former places, it is becoming more and more apparent that the situation in this district will be influenced entirely by the turn of events in the more important railway centers.

On the surface, there was little apparent change today at the Ogden shops or at those in the Peacelock (Idaho) division.

Now that the last hour of grace allowed the strikers has expired, officials of the Short Line in this city are apparently determined upon an uncompromising attitude toward the men who have left the service. That the strikers will no longer be considered employees of the company and will be taken back, if at all, only as new men, was the assertion of F. H. Knickerbocker, assistant general manager of the Oregon Short Line. Other officials spoke with equal force.

At maintained that the company would have little difficulty in finding men to take the places of the strikers.

In spite of the ultimatum that today was the last on which striking shopmen could return to work without prejudice to their pensions, none of the union men applied for reinstatement this morning. The company has been active preparations today to recruit, house and protect strike breakers on all their divisions.

At Ogden, a strike appeared this morning to accept the offer to return to work. Within the stockade at the shops, twenty-five carpenters are erecting what is designated as a hotel and the Harriman officials have ordered 250 mattresses. A recruiting station for strike breakers has been established in one of the uptown office buildings. Advertisements in the local papers offer forty-five cents an hour for men to work in railroad shops.

Los Angeles Daily Times.

ANTI-TRUST LAW MAY BE INVOKED IN BIG STRIKE.

Railroads Considering Advantages of Prosecuting Striking Unions Under Sherman Act—Step Has Once Before Been Upheld in Courts—Union Men Fear Effect on Savings, Which May Be Held for Damages.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 4.—(Exclusive Dispatch.) Prosecution of the leaders of the railroad strike under the Sherman anti-trust law, is the next step under contemplation by the railroads.

At the offices of the Illinois Central and the Harriman railroads, it was admitted today that counsel are delving into the decision of the United States Supreme Court in the Danbury haters' case, and that suit may be instituted against the strike leaders.

Attorneys for the railroads are said to have advised the officials that the strike is a conspiracy to restrain trade, as defined by the Supreme Court when labor unions were brought under the working of the anti-trust law, and that funds of the unions, as well as the savings of individual strikers, may be seized to pay the railroad in three-fold damages for the losses they have sustained.

An intimation that the strikers fear such a move on the part of the railroads was given in the petition which mechanics ordered to be circulated ordering their officers to call off the strike. In the petition the signers said they were property owners and feared that their savings might be dissipated through court proceedings.

When the Supreme Court gave its decision in the case of *Loewe vs. United Hatters of America*, the American Federation of Labor, made a vigorous protest, and its Legislative Committee, at each session of Congress, since, has tried to have the anti-trust law amended, but without success.

OGDEN'S DEPOT IS UNDER GUARD.

(BY A. P. NIGHT WIRE TO THE TIMES.)
OGDEN (Utah) Oct. 4.—As far as could be learned tonight, not one of the striking Union Pacific shopmen who walked out Saturday, made application to the company for their old jobs. Superintendent Rowlands said tonight:

"There is little change in the situation. Nearly 200 men are working in the shops and every thing in this department is running smoothly. The letter which we sent to the men asking them to return to work has had little effect as yet. Any rumors about the trainmen going out in sympathy with the shopmen are foolish stories, for we have no grievance with the trainmen. The trains are all being properly inspected."

The strikers have opened a free employment bureau at their headquarters here and are advertising that they can furnish all kinds of skilled mechanics and laborers.

Armed guards were placed around the union depot tonight to prevent any demonstration, which may be planned when President Taft arrives here at 4:40 o'clock tomorrow morning.

OVER A SCORE DROP THE STRIKE.

(BY A. P. NIGHT WIRE TO THE TIMES.)
OAKLAND, Oct. 4.—Since yesterday twenty-six men dropped out of the strike, Master Mechanic C. C. Hinkley and have been put to work in the West Oakland yards of the Southern Pacific. They are from the ranks of the men who walked out last Saturday morning, according to railroad officials.

Wholesale cutting of air hose on cars has been reported, in denied by local railroad officials. They say that but one freight train was held up and that was for twelve minutes.

ENGINES, UNMANNED, ARE TURNED LOOSE.

(BY A. P. NIGHT WIRE TO THE TIMES.)
BAKERSFIELD, Oct. 4.—Two engines were turned loose in the yard at Taft today, it is alleged, by unknown men, and were started out on the main line without engineers or firemen. Presently the wrecked ore car blocked the track and the engines stopped with a crash after they had gone 200 yards. But for the ore cars the engines would have run on "wild" into the yards at Bakersfield.

As Usual.

SHOPS MANNED AND OPERATING.

"NOT SERIOUSLY HANDICAPPED," SAYS GENERAL MANAGER.

Southern Pacific Management Offering Rewards for Capture of Miscreants Who Damaged Air Equipment—Caring for Men Who Remain With the Company.

The proposition made Monday by the railroads that all shopmen who returned to work before Thursday would have rights restored is to be tested today by the Salt Lake and Southern Pacific. The former company has been employing strike-breakers while the latter has only been accepting former employees who desired to return to work.

"The shops are manned and work is being done," said General Manager Wells of the Salt Lake Railroad, last night. "We have not been seriously handicapped. Both passenger and freight trains are running on time, and we have had no engine failures."

According to a statement from the office of General Superintendent Platt of the southern district of the Southern Pacific, last night, the situation in reference to train operations is unchanged. The only depredations of any consequence have occurred at the Ogden shops, where the air equipment having been interfered with at the latter place. Fourteen cars were tampered with. At another point, two engines were started and did some damage. The company has offered a reward of a thousand dollars for the apprehension of the guilty.

According to Platt the management is determined to leave nothing undone to apprehend parties molesting the equipment of the company and will see that the laws respecting same are complied with.

"The time of the officials has been consumed principally in providing for the proper care of the men who remained with the company at the time of the walkout in furnishing adequate sleeping quarters and providing the men, as well as furnishing adequate protection for the peaceful performance of their duties," said Platt.

Los Angeles and other points, other than Fresno and Merced, generally have been free from interference and the business of the company is moving without delay."

ANTI-TRUST LAW MAY BE INVOKED IN BIG STRIKE.

Railroads Considering Advantages of Prosecuting Striking Unions Under Sherman Act—Step Has Once Before Been Upheld in Courts—Union Men Fear Effect on Savings, Which May Be Held for Damages.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 4.—(Exclusive Dispatch.) Prosecution of the leaders of the railroad strike under the Sherman anti-trust law, is the next step under contemplation by the railroads.

At the offices of the Illinois Central and the Harriman railroads, it was admitted today that counsel are delving into the decision of the United States Supreme Court in the Danbury haters' case, and that suit may be instituted against the strike leaders.

Attorneys for the railroads are said to have advised the officials that the strike is a conspiracy to restrain trade, as defined by the Supreme Court when labor unions were brought under the working of the anti-trust law, and that funds of the unions, as well as the savings of individual strikers, may be seized to pay the railroad in three-fold damages for the losses they have sustained.

An intimation that the strikers fear such a move on the part of the railroads was given in the petition which mechanics ordered to be circulated ordering their officers to call off the strike. In the petition the signers said they were property owners and feared that their savings might be dissipated through court proceedings.

When the Supreme Court gave its decision in the case of *Loewe vs. United Hatters of America*, the American Federation of Labor, made a vigorous protest, and its Legislative Committee, at each session of Congress, since, has tried to have the anti-trust law amended, but without success.

OGDEN'S DEPOT IS UNDER GUARD.

(BY A. P. NIGHT WIRE TO THE TIMES.)
OGDEN (Utah) Oct. 4.—As far as could be learned tonight, not one of the striking Union Pacific shopmen who walked out Saturday, made application to the company for their old jobs. Superintendent Rowlands said tonight:

"There is little change in the situation. Nearly 200 men are working in the shops and every thing in this department is running smoothly. The letter which we sent to the men asking them to return to work has had little effect as yet. Any rumors about the trainmen going out in sympathy with the shopmen are foolish stories, for we have no grievance with the trainmen. The trains are all being properly inspected."

The strikers have opened a free employment bureau at their headquarters here and are advertising that they can furnish all kinds of skilled mechanics and laborers.

Armed guards were placed around the union depot tonight to prevent any demonstration, which may be planned when President Taft arrives here at 4:40 o'clock tomorrow morning.

Cities and Towns of Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

MUSICAL ROW QUITE BREEZY.

Prized Violin Has Leading Part in Mix-Up.

Woman Thrown Out of Buggy During Runaway.

Boulevard Enthusiasts Will Banquet Tonight.

(Office of the Times, 12 S. Fair Oaks Ave.)
PASADENA, Oct. 3.—A temporary full in a quarrel of several days standing occurred yesterday when Constable Newell, with a search warrant, went to the home of F. L. Putnam, No. 325 Lester avenue, and took possession of a violin, the owner of which declares it has the tone of a Cremona or a Strad. The violin, already had gone undamaged during an encounter of the disputants, during which a window pane was smashed and a hurly call sent in to the police.

The owner of the violin, and also of a clarinet and cornet which Newell picked up for good measure, is Frank J. Goss, who says he is a magnetic healer and who claims to have restored the sight of one Charles Brown, who has been treating Brown for a year. The latter ran out of money to pay the healer and finally, apparently, out of board money also. The doctor-musician, the story runs, not only contributed his services gratis, but took Brown into his boarding-house, conducted by Putnam, and agreed, so it is claimed by the proprietor, to pay for his maintenance.

Finally it was claimed that the healer became in arrears. Then the trouble started with the seizure of the musical instruments. Putnam claims that they were turned over to him by the owner. Goss insists Brown took them and turned them over to the landlord.

Last Tuesday the feeling became so acute that Brown and Goss attempted to see which could hold the things the longest by sheer physical strength, and it was then that the window pane was broken and the police called. Yesterday Goss swore to the complaint before Justice McDonald. The case has been set for a hearing at 10 o'clock this morning.

WOMAN INJURED.
Mrs. Ida Gordon, a widow, who conducts a small dairy at No. 622 North Mentor avenue, sustained a broken collarbone yesterday afternoon, when she was thrown from a buggy drawn by a runaway horse at Craig avenue and Villa street. In the buggy, with her, were two small girls, one her daughter, Ruth. They were slightly bruised.

The breaking of a shaft is believed by Mrs. Gordon to have caused the accident. The horse ran along Villa street, dragging the buggy by the remaining shaft.

The injured woman was taken to the Pasadena Hospital. It was reported last night that her condition is not serious. She is a member of the Macabees. Her son, Kenneth Gordon, is employed by J. G. Blick, a local architect.

GOOD ROADS BANQUET.
The first meeting of the Foothill Boulevard Association, which is to take the form of a banquet at the Hotel Maryland tonight, will be the occasion of imparting a new impetus to the good roads campaign now under way. Frank Wheeler of Claremont, who is a member of the Committee of Arrangements, stated last night that between forty and fifty boulevard enthusiasts will be present.

The continuation of the foothill boulevard through Monrovia, Claremont, Upland, and on to Redlands will be discussed. Delegates will attend from many Southern California cities, and several questions of great importance will be brought up.

NAME, VICE-PRESIDENT.
Following a meeting of the Board of Directors of the Pasadena National Bank yesterday morning, announcement was made that Charles N. Post succeeds the late Isaac Bailey as vice-president of that institution. George J. Brenner was elected a director.

Post has been actively connected with the bank for many years and is one of the best known residents of the city. Brenner is a member of the mercantile firm of Brenner & Wood, and has long been a stockholder of the bank.

BREATHING WINDOWS.
The last opening of the Pasadena merchants attracted large crowds to the downtown portion of the city yesterday. Spectacular windows were uncurtained at 9 o'clock in the forenoon, but though they attracted much attention throughout the day, it was not until evening that the streets became crowded.

The special exhibit will continue tomorrow and tomorrow night. Magnificent gowns and hats are on display and even the grocery and hardware and other stores, quite apart from those in the clothing line, have taken great pains to decorate their windows.

CITY ASKED TO HALT ITS SUITS.

PROTEST VOICED BY SAN PEDRO CHAMBER OF COMMERCE.

Resolutions Adopted by Executive Committee Oppose Expenditure of Bond Money for Purchase or Completion of Work Done—Should be Spent in New Development.

SAN PEDRO, Oct. 4.—The Executive Committee of the San Pedro Chamber of Commerce by resolution today, opposed the expenditure of any portion of the \$2,000,000 voted by the city for harbor improvements for the purchase or completion of work done on the miner fill in the outer harbor, and the project of the Pacific Wharf and Storage Company, at East San Pedro.

The Executive Committee takes the position that the money authorized by the bond issue should be expended on new development work, such as that proposed on the recently forfeited Huntington concession at the foot of San Pedro street on the outer harbor. The attention of the present city administration is particularly called to pre-construction pledges in regard to these proposed expenditures.

ASK CONSIDERATION.
The resolution adopted today is as follows:

"Whereas, it appears that the city of Los Angeles is about to bring action in the courts for the purpose of obtaining the validity of titles to the Outer Harbor and Dock and Wharf Company and the Pacific Wharf and Storage Company, and

Whereas, it has been commonly reported that the plan may be proposed whereby the city of Los Angeles will purchase from said corporations their right, if any, in said lands and pay therefor out of the bond money heretofore voted for harbor and right of way construction, therefore be it

Resolved, that this Chamber of Commerce respectfully calls the attention of the authorities of the city of Los Angeles to the fact that both of these projects were under way at the time of consideration as well as at the time the \$2,000,000 of bond money was voted; that the people of San Pedro and the people of Los Angeles understood, both at the time the consolidation pledges were entered into and at the time the bonds were voted that the money to be derived from said bonds, should be spent in new work to be initiated by the city with said money including the establishments of boulevards to said new projects; that the proposed plans of both of the above corporations were well-known at that time and that the people of San Pedro fully understood that after the voting of the bonds the harbor would have the benefit not only of the private construction work then in progress, but also of the new improvements proposed to be made with the bond money; and that in consideration of these things we do hereby earnestly protest against the use by the city of Los Angeles of any part whatever of the \$2,000,000 of bond money voted for outer harbor improvements for the purchase of any projects already under way or for the reimbursement of any corporations or persons for money already expended. And be it further

"Resolved, That in connection with the proposed suits of the city versus the corporations above referred to, we would respectfully call the attention of the city officials to the fact that both of these corporations are carrying forward their projects under franchises that run for the term of fifty years each, and that at the end of that time all of the improvements made by them will revert to the city to come, and that it appears to this chamber that the great advantages to be derived by the harbor from the carrying on of these independent enterprises contemporaneously with the city's work in other parts of the harbor is such as to outweigh any advantage to be gained by the city's immediate possession of these properties, and we earnestly urge the officials of the city to consider this phase of the situation before proceeding with the proposed suits against these corporations, but nothing in this resolution is to be construed as opposing municipal ownership as the eventual scheme for harbor management, provided that the \$2,000,000 already voted shall all be used for new work exclusively."

PILOT RESIGNS.
Capt. John Hamilton today forwarded his resignation as port pilot to the Board of Harbor Commissioners to take effect at once. Capt. Hamilton, it is stated, will resume his former occupation as a master of coastwise steamers.

REDONDO BEACH.
REDONDO BEACH, Oct. 4.—The imports and exports at this port for September, according to the report of the United States Customs office, are as follows: Imports, \$218,969 feet of lumber, 2,950,000 shingles, 140,100 railroad ties, 55,000 barrels of oil, 155 poles and 1800 tons of merchandise. Exports, 487 tons of merchandise. Arrivals, 13 steamers, 2 schooners, 1 bark, 1 barge, 52,775 net tons, 2495 men in crews, 1976 passenger departures, 18 steamers, 1 schooner, 1 bark, 1 barge, 2397 men in crews, and 1217 passengers.

REPAIRING PIERS.
The Pacific Electric Railroad is repairing the three piers, the piles of which have been giving away, leaving the wharves in pretty bad shape. The pile driver was started on wharf No. 1 today.

LOOKING INTO WATER PLANTS.

VENICE TRUSTEES START OUT ENGINEER ON TOUR.

Purpose is to Ascertain Whether Private or Municipally Owned Systems Are Most Profitable by Comparison of Cost—County Assessor Gathering Information.

VENICE, Oct. 4.—The City Engineer has been authorized by the City Trustees to make a tour of the cities of Southern California which have municipal water plants. The purpose of this journey is to learn how each city has spent for its municipal water system, what the cost of maintenance is per annum for each inhabitant, on the assessed valuation and in the aggregate, compared with the cost before the city went into the water business. The report will also show the annual profit or deficit to the city. The facts gathered by the engineer are to be embodied in a comprehensive report to be made to the Trustees.

The liability of the city on account of a hay fire that is said to have been started by a spark from the municipal garbage incinerator, is to be tested by William Fabbri. His lost twenty-five tons of hay, and alleged that the responsibility for the fire rests with the city. He has asked to be reimbursed, and the Trustees are investigating the matter.

COMPARING ASSESSMENTS.
The seaside assessments as made for municipal purposes are under investigation by County Assessor Hopkins and a force of deputies. He is making comparisons with the assessments as made by the county field deputies. The purpose is to use the information thus gained in making the county assessment for the new year. It is said that in many instances along the bay the city has placed much higher valuations on certain pieces of valuable property than has the county.

PERRIS FARMS

BUSINESS FARMS

IRRIGATED

The Best Land For the Homeseeker

If you expect to buy California land, by all means investigate my Perris Irrigated Farms. You'll find the soil and water conditions—also the PROFIT conditions—that will absolutely suit you. Here's selected land in the famous Perris Valley—where alfalfa ranches are so profitable—where peaches, apricots and apples bring such high prices—where ordinary field crops like potatoes, sweet potatoes and onions earn the growers splendid incomes every year. This land is practically all-purpose soil, and prices include a valuable water right. I'm selling it from \$100 to \$150 an acre, on terms that are extremely favorable. Soil samples and full information at my office. Free excursions to the land itself for those who are in earnest. The area of this selected land is strictly limited; only enough land for comparatively few ranches. Investigate NOW. If you cannot call at my office in person, write me without delay.

The Times

LOS ANGELES

Half-Million Dollar Hotel for Sixth and Figueroa Streets.

Splendid Modern Structure to Mark the City's Westward Trend. Reinforced concrete structure of three hundred rooms, designed by a northern architect, to be reared by Carroll W. Gates. This perspective was prepared from blue-print elevations submitted to contractors yesterday.

Los Angeles, city of hotels, is soon to have another large and modern hostelry. Seven local contractors were yesterday asked to bid for the construction of a nine-story reinforced concrete building of 300 rooms, to be reared at the southeast corner of Sixth and Figueroa streets, by Carroll W. Gates, capitalist and large owner of valuable realty in this city.

Plans for the structure, which will be one of the finest in the downtown section, were brought to the city yesterday morning by William Curlett of San Francisco, the architect. Complete blue prints and specifications were quietly distributed to the contractors in the afternoon. Gates & Son of this city are the resident architects of the proposed structure.

A faithful representation of the big hotel as it will appear, when completed appears herewith. This perspective, prepared by a Times staff artist, from blue print elevations of the building, shows both the Sixth-street and Figueroa-street frontages. The hotel building itself will cost about \$100,000, and the cost of the furnishings, together with the installation of the water and sewerage systems, will bring the total to approximately \$150,000. About a year will be occupied in construction, which will be started as soon as the bids are accepted. The site is at present occupied by an old three-story frame building.

The building will be managed by a St. Louis hotel man to whom the hostelry has been leased, through the agency of the H. Jerome Toy Hotel and Brokerage Company, which represented both parties to the transaction and which has been actively identified in the promotion of the project since its inception. The term of the lease is fifteen years, and the total rental will, it is stated, approximate \$500,000.

The hotel will have a frontage of 125 feet on Figueroa street, by ninety-seven feet on Sixth street, and will be absolutely fireproof. The walls, floors and partitions are to be of reinforced concrete, and the exterior will be handsomely faced with brick, tile and terra cotta. Architecturally the exterior will be designed along simple but elegant lines, the ornamental features being largely confined to the first two and the eighth and ninth stories.

The ground floor will be divided into storerooms, and will contain two large marble hotel lobbies, and a cafe. Each floor will contain thirty-three rooms, and twenty-one baths. Light and air will have free access to every room owing to the arrangement of a large open court, fronting the east.

Recent developments indicate that the long-proposed industrial center on the Dominguez ranch may reach realization. For some time it has been the dream of Los Angeles men at the head of some of the biggest industrial establishments of the city to establish a model industrial town within easy distance of Los Angeles.

Contributing to this desire was the necessity of enlarged plants felt by such big concerns as the Union Tool Company, the Baker Iron Works, the Llewellyn Iron Works and some of the railroads. From the start, J. S. Torrance, prominently connected with the Union Oil Company, the Union Tool Company, the California Industrial Company and the investment house of J. H. Adams & Company, has played a leading role in working out the many details of the big scheme.

It was learned yesterday from an authoritative source that the Southern Pacific, the Pacific Electric, the Los Angeles Pacific and the Los Angeles and Redondo corporations have become interested in the industrial center, and will co-operate with the promoters of the plan in making it a success. It is asserted that the Carson tract of the Dominguez ranch, consisting of 5000 to 6000 acres, has been selected as the site of the new town. It is further stated that the Pacific Electric Company has asked for 100 acres of land upon which new shops will be built, which would mean the discontinuance of the shops at Redondo Beach and Sherman and a centralization of equipment at the new site. It is said that the present force of employees, aggregating 700 men, will soon be increased to 1200.

MAY BE ESPEE SHOPS.

The Southern Pacific may possibly take over 100 acres of the Carson tract and will employ there 1500 men in the shops. The Baker and Llewellyn iron works, if they move their plants to the new town, will employ 300 men each. The Union Tool Company employs several hundred men, and several other industrial plants are expected to take advantage of the inducements offered by the

(Continued on Tenth Page.)

EXTRA CALL'S MAIN POINTS

Suffrage Cash and Justice May be Included.

What Southern Legislation Members Expect.

Session of Three or Four Weeks Likely.

Suffrage, apportionment, Presidential preference elections, State finance, justice of the peace, the railroad commission and State Printer among non-likely to be the subjects included in the promised call for a special session of the Legislature, southern members have been informed.

The recent travels of Gov. Johnson seem to have pretty well settled the scope of the special session and its time. The call is expected immediately after the election next Tuesday, and will include all matters requiring statutory aid—provided the amendments themselves carry. It also learned that the Governor expects to have the Legislature meet about November 1, but may postpone it until after the San Francisco election, which is November 7, as all the members, particularly Senator Tom Pina, a candidate for Sheriff, are vitally interested in the outcome.

It promises to last three to four weeks. There is an impression, gained from contact with the Governor, that it will not last more than four weeks and, perhaps, that it would better go through in two. Just as soon as it is certain what amendments have been prepared and be in readiness for the Legislature when they assemble.

SUFFRAGE WAITS.

Suffrage is an important feature of the session, because it will be necessary to change all the election laws to admit women. On this phase of legislation there is much confusion. The Constitution is changed next Tuesday to give women the ballot. It will become effective immediately. It has been believed that this alone would entitle women to register and to vote. But there are eminent solons who dispute this and declare women will not have the power to vote until the law regulating registration has been made bi-sexual, at least. If their contention that no female registration may be accepted until the laws have been changed is right (and only court can determine this), all

(Continued on Sixth Page.)

LABOR LAW TEST INTERESTS MANY.

CONCERN GIVING PAY CHECKS ADVANCE DATED.

This Will Be First Trial Under Law Passed by Last Legislature, and Prosecutor Has Been Searching for Precedents—Deputy Labor Commissioner in It.

Great interest is being manifested by employers throughout the State in the coming trial of C. V. Wishart of the Pasadena Foundry Company, charged with having violated a labor law passed by the last Legislature. The case will be tried before Judge McCormick.

Deputy District Attorney Hammon, who will represent the State, is confident of a conviction, having searched the records of various State and Appellate courts the country over for precedents. Hammon asserts that Wishart, in paying one of his employees with a check dated in advance of the time that his labor ended, violated one of the recently passed State labor laws.

The case is the first to be tried under the new law. The attorneys for Wishart will attack the law on the ground that it is unconstitutional and a menace to their client and employers at large.

The case will be tried Saturday morning.

There is a law in West Virginia which has been duly tested by the Supreme Court of that State, which makes it a criminal act for an employer to pay his help in script.

It is asserted that N. Allison, to whom the check was issued by the Pasadena Foundry Company, had little to do with the prosecution of his employers. Deputy Labor Commissioner Tobin's name appeared on the complaint and it was stated at the District Attorney's office that he unearthed the evidence. The check given by the foundry company to Allison was for \$49.50. It was given him on July 1 but was dated July 15.

COP SKATER JOBLESS NOW.

Patrolman Dismissed for Violating Rule While on Leave Secured on Plea of Sickness.

Believing that any officer who is able to skate on roller skates is able to patrol his beat, Chief Sebastian yesterday dismissed Patrolman D. C. Davis from the force.

Davis was suspended temporarily Tuesday by Capt. Bradish of the University division. After pleading sickness and being granted a day's vacation to recuperate, it appears that Davis disported himself in a skating rink.

Chief Sebastian declared the officer's conduct should be construed as a neglect of duty.

AMAZING COINCIDENCE TANGLES UP POSTOFFICE.

What's in a Name?

A REMARKABLE example of coincidence of circumstances and of names is giving Postoffice Inspector Webster more to wonder at than six puzzles of the caliber of that having to do with the age of Ann. Two women from the same little town in Minnesota, whose several names are identical with the exception of one letter, each loaned the same sum of money to the same woman, and thereby grove a snarl.

Three years ago Miss Minnie Koenig, who lives at the Fortuna apartment-house on East Fifth street, lent a sum of money to her friend, Mrs. E. Brennan, who then lived in Pasadena and has since moved to Portland, Or. At the same time Mrs. Brennan wrote Miss Koenig asking her to apply on account and Miss Koenig, noting that it came from Mrs. Brennan, naturally thought the money was for her. She neglected, however, to acknowledge the receipt of the money.

In the course of time, Mrs. Brennan wrote Miss Koenig asking her to apply on account and Miss Koenig, noting that it came from Mrs. Brennan, naturally thought the money was for her. She neglected, however, to acknowledge the receipt of the money.

An investigation of the affair by Inspector Webster promptly disclosed the facts. Informed of them, Miss Koenig readily promised to return the \$40. She did \$10 on the 20th of last month.

There will be no prosecution of Miss Koenig, as the officials are convinced that it was merely a natural mistake.

ENGINEERS WILL BE CITY'S GUESTS.

MINING MEN ARE DUE HERE THIS AFTERNOON.

A special train will arrive this afternoon with the eastern members of the American Institute of Mining Engineers, who are on their way to the convention to be held in San Francisco October 9 to 14. The party will remain in this city until Saturday evening, during which time the visitors will be entertained by the local members of the institute.

A programme has been arranged by which the easterners and their friends will be shown all the points of interest possible during their short stay. Upon the arrival of the train at the Santa Fe station at 2:30 p. m. it will be met by a Reception Committee in charge of R. W. Hadden. The party, which is seventy-five in number, will be taken in two special trolley cars to the Hotel Alexandria, where the ladies' committee will informally receive the visiting ladies.

A dinner will be given at the Sierra Madre Club at 7 o'clock this evening. After the dinner a lecture on the Los Angeles Aqueduct, illustrated by lantern slides, will be given by Chief Engineer Mulholland.

The party will be taken over the lines of the Los Angeles Pacific to

tomorrow in special cars. Stops will be made at all of the points of interest. The first point to be visited will be the oil fields at Sherman, after which the party will go to the Soldiers' Home. Lunch will be served at Ocean Park and the afternoon spent in visiting Venice, the big power house at Redondo Beach, the Redondo Beach bath-house, where a swim is planned for everyone. A fish dinner will be served at Redondo Beach at 6 o'clock.

An automobile trip through the suburbs of Los Angeles will be given Saturday morning. The trip will include a visit to Pasadena and the orange groves. A trip to San Pedro, Long Beach, Huntington Beach, and Santa Ana is contemplated. The evening will be taken up with a special programme at Clune's Theater.

The visitors will leave for the north at 12:05 Sunday morning, and will be accompanied as far as Redondo field by a special coach of local engineers.

The Executive Committee which will have charge of the entertainment of the visitors is composed of the following named: Theodore B. Comstock, chairman; R. W. Hadden, R. Simpson, C. C. Jones, F. J. H. Merrill, Seelye W. Mudd, R. W. Muller, R. H. Norton, H. H. Perot, C. E. Foster, L. D. Goldsall, M. Goodie, L. A. Greene, R. W. Hadden, E. A. Haggott, W. H. Howard, C. A. Hoyt, W. H. Hurd, J. H. Schuch, C. E. Jones, F. A. Kelly, L. Lindsay, A. Sandoval, C. P. Schader, C. M. Shannon, C. C. Sibley, H. R. Simpson, W. F. Staunton, A. M. Strong, R. H. Sullivan, L. W. Wickes, W. H. Wilson, B. Williams, P. Wissman.

MODEL CITY MAY SOON BE BUILT.

Fresh Rumors of Industrial Center at Dominguez.

Railroads No Longer Stand in Way of Plan.

Official Announcement May Soon be Made.

Recent developments indicate that the long-proposed industrial center on the Dominguez ranch may reach realization. For some time it has been the dream of Los Angeles men at the head of some of the biggest industrial establishments of the city to establish a model industrial town within easy distance of Los Angeles.

Contributing to this desire was the necessity of enlarged plants felt by such big concerns as the Union Tool Company, the Baker Iron Works, the Llewellyn Iron Works and some of the railroads. FREE VICTOR Concert Today at 3 p. m.

Our regular weekly Victor Concert will be given this afternoon at Three O'Clock. The program will be made up from the new Victor Records for October, and we promise you a high-class and very interesting entertainment. These weekly Victor Concerts of ours are free and many people take advantage of them. Come and bring your friends; you are more than welcome. This concert is our Third Floor Talking Machine Department.

Victrolas \$15 to \$250 Victors \$10 Up PURCHASABLE ON EASY TERMS.

You'll find it a big advantage to purchase your Victor or Victrola here. FIRST of all, our assortments are absolutely complete—and this applies to Victor Records as well as to Victrolas and Victrolas. SECOND, this handsome new Talking Machine Department of ours affords you every facility for judging the merit of any Machine—under practically the same conditions as if you were in your own home. Comfortable, well lighted, sound-proof demonstrating rooms—this means much to the prospective purchaser. THIRD, we'll sell you any style Victor or Victrola on the easy payment plan. A small cash investment secures the instrument—you can enjoy it while you are paying for it. We make most liberal terms and you have every possible advantage.

We are always glad to explain the details of any of our Talking Machines, and to play for you any record or records you may wish to hear. Acquaint yourself with the advantages of our Talking Machine Department—then utilize them—we invite you to do this.

PAIR PLAY HOOKEY TO DODGE WEDDING FRILLS.

Impromptu Elopement.

Mrs. Robert Mendenhall Hiddleston.

Who was Miss Gertrude Williams until Tuesday evening. An elaborate church wedding had been planned for the young couple, not to mention any number of social functions of the first magnitude, to celebrate the nuptials. In the middle of these ornate preparations, the pair ran off to Santa Ana and were married by a justice of the peace.

COOLLY disregarding the fact that their affectionate relatives and solicited friends had spent weeks and weeks planning a gorgeous big church wedding and no end of elaborate social functions in honor of their nuptials, Gertrude Williams, one of the season's most delectable bachelors, and her fiancé, Robert Mendenhall Hiddleston, ran off in a motor car to Santa Ana Tuesday afternoon and were married by a common or garden Justice of the Peace.

The news leaked—or rather it burst with a bang on an amazed and disconcerted circle of friends—yesterday, when a meek little wire snaked up from the Southern California Gretna Green and set forth that the event so long planned and studiously rehearsed had come off with the guests still at the quarter pole.

The bride's mother, Mrs. J. C. Henderson, of No. 354 Ardmore avenue, bore up with external fortitude but with a heart that sank at the prospect of all those invitations to cancel and arrangements to undo. In view of the advanced stage to which the plans had progressed it is enough to make anybody disconsolate.

Mrs. Hiddleston is 22 years old and a prime favorite in the younger set. She is a graduate of the University of Southern California and has just returned from a year in Europe. Hiddleston is 25, the son of Dr. Clifford Hiddleston, of Akron, O.

The formal announcement of the engagement was made late last month at an elaborate luncheon given by Miss Bernadine Williams, a sister of the bride. The wedding was to have been an elaborate church affair to occur the latter part of this month. The series of dinner and theater parties in honor of the occasion have been cancelled—or, rather, they have been deferred until the couple get back.

They have gone North on their own, personally-conducted honeymoon.

The Public Service: City Hall and Courts.

SUMMARY OF THE DAY.
Meeting of the Harbor Committee of the City Council will be called at noon to formulate plans for a municipal ferry at San Pedro.
Sympathy and suggestion in place of imprisonment is the plan which will probably be followed in the case of Miss Alice Taylor, a kleptomaniac.
A former resident of Maine, who died in Pasadena, Tuesday, left an estate of \$100,000, principally to two nieces, cutting his wife off with \$1000, and his two sons with \$100 each.

At the City Hall.

TO MAKE FERRY PLANS AT ONCE.

HARBOR COMMITTEE OF COUNCIL WILL PREPARE REPORT.

Chairman Betkowski favors project, but thinks City should give Harbor Larger Service Than First Contemplated; Boat Will Not Run to Wilmington.

The question of the municipal ferry at the Fifth street landing in San Pedro, is to be taken up at once by the Harbor Committee of the City Council, and a report will be rendered, perhaps at the next session of the Council, although Chairman Betkowski of the committee is not certain whether it can be prepared by that time.

The Harbor Committee, which is composed of Councilmen Betkowski, Smith, and Fifth street, without resort to meeting day, and convenes only at the call of the chair.

"I shall call the committee together a day or so," said Betkowski yesterday. "It is a pretty large proposition in my opinion, this ferry. It should be owned by the city, for it is a hardy fair to ask a team to go around by way of Long Beach from San Pedro, to a point only five hundred yards or so away."

"We will not need to get boats as large as those that cross from San Diego to Coronado, for instance, and if these Wilmington people think we are going to run a ferry to Wilmington, they are mistaken. But we would want a boat that will carry at least a couple team and we can't get that with \$1000, which is all there is in the treasury for this ferry."

"I do not," said Betkowski yesterday. "It is a pretty large proposition in my opinion, this ferry. It should be owned by the city, for it is a hardy fair to ask a team to go around by way of Long Beach from San Pedro, to a point only five hundred yards or so away."

Those who are advocating the ferry's being started at once may say that it is necessary to make a beginning because it is almost certain a law suit will be instituted at the first move made by the city, as the Southern Pacific is not expected to surrender its claim to Fifth street, without resort to the courts. Small boats should be bought, they say, and these could be used elsewhere afterward, and a larger vessel could then be procured. They object, too, to the purchase of a ferryboat large enough for a team, saying that it would cost four times as much as there is in the ferry fund, and would entail the construction of a landing, all of which would require more money.

PAY FOR PRIVILEGES.

PUBLIC WORKS BOARD POLICY.
If the city owns the tidelands at Terminal Island, then people who ask for privileges there, ought to pay for them, was the policy enunciated for the Board of Public Works, at its session yesterday afternoon by Commissioner Humphreys.

When the Pacific Coast Navigation Company asked for a permit to erect and conduct a laundry on Terminal Island on land claimed by the Salt Lake Railroad, the request was referred to Special Counsel Hewitt. Yesterday he filed an opinion in which, after agreeing that the board has the right to grant the permit as asked, he suggested that some conditions should be placed in such permits as to assert the city's claim to ownership of the land.

This was about to be agreed to when Commissioner Humphreys objected that no such permits had been granted heretofore, and he thought it a condition should be made part of the permit now, as to proper compensation.

The application was returned to Hewitt with directions to insert the conditions as desired. The city will probably charge a nominal rent for the use of the land. It is about to be quiet title to all the tideland property under the State laws, and the papers are in the hands of Special Counsel Hewitt.

LIQUOR MEN ACCUSED.

POLICE COMMISSION QUERIES.
Before the Police Commission yesterday, May & May, restaurant keepers at No. 806 East Third street, were accused of having sold liquor after hours and of improper conduct of their business. The accusers are Mrs. P. R. Turner, Mrs. F. A. Webster and Mrs. E. P. Price. May & May have a second-class restaurant license. They were called to appear before the board.

Joseph Ballester appeared before the board when William C. Dillon was called to explain charges against him, it having been alleged that he conducted his saloon on South San Pedro street in an improper manner. Ballester said he owns the saloon and wanted the license transferred to him. He was directed to make up his property documents with Dillon prior to the transfer.

H. G. McCoy and Johnson & Wells, owners of saloons where drinks were given in return for charges won at cigar stunts, yesterday, despite the extension of the rule adopted by the Police Commission six weeks ago, under which the regulation against serving liquor on such days was made to apply to social clubs as well as to saloons.

The Police Commission yesterday decided that this rule should be extended to include the rule to be changed so that liquor may be served with meals.

at the club-rooms between the hours of noon and 2 o'clock, in the afternoon.

WANT A FEW ARRESTS.

POLICE AID FOR PARKS.

Two or three arrests on Sunday in Sunset, Westlake or any other park, of men who insist on throwing papers and handbills on the lawns, the Park Commission told the Police Commission in a formal communication yesterday morning, would put a stop to a practice that has become a nuisance and is contrary to a city ordinance.

The Park Commission asked the Police Commission to detail one or two plainclothes men to the parks next Sunday and make the arrests. The Police Commission heard the letter in silence and did not appear to be enthusiastic. It was intimated that the Park Board formerly employed watchmen, but dismissed them all a year ago on the statement that they were not needed and money could be saved.

The subject was referred to the Chief of Police with power to act.

WHAT IS SERVICE?

FRANCHISES TO SPECIFY.

To protect the interests of corporations and the city alike, it was decided yesterday morning at the conference of the Board of Public Utilities with railway attorneys and the representatives of civic associations at the City Hall, to include in the general franchise ordinance, proposed for adoption and now under consideration, a specification of what shall constitute service. All individual franchisees are to be so made that the number of cars, for instance, and the roadway between them shall be designated.

This decision was reached when a suggestion was made that a company unable to run cars because of a strike followed by a sympathetic strike, could not be deemed to have abandoned its franchise.

E. O. Edgerton brought up a plan under which, if the city did not have all the money necessary to pay for a railway when taking it over under the indeterminate franchise clause, it could pay part in cash and take over the company's bonded indebtedness for the remainder.

TO PREVENT BLACKMAIL.

PLANS OF CHIEF OF POLICE.

The Chief of Police submitted to the Police Commission the draft of an ordinance yesterday for a license of \$100 a year for all private detective agencies. The proposed law provides, too, that every agency shall file a bond for \$2500 and any person injured by the actions of the agency's employees may sue against the bond. "This would eliminate the cheap blackmailing agencies," said the Chief in his letter, "and would be of benefit to those conducting a legitimate business."

STENOGRAPHER INSTALLED.

J. B. Fox, one of the stenographers recently appointed by the Police Commission to the clerical work in the Central Police Station was assigned to the detective department by Chief Sebastian yesterday.

Causes Confusion.

Will the name of Santa Monica avenue, running along the northern border of Exposition Park, be changed? When this was proposed a year ago, there was such a determined protest on the part of property owners that the matter was dropped by the Board of Public Works, but yesterday the City Engineer was directed again by the board to find a new name for the thoroughfare.

There is another Santa Monica highway, formerly called an avenue but now known as a boulevard. This is in Colegrove, and runs parallel to the first Santa Monica avenue at a distance of about six miles.

Secret Service Fund.

The City Council will be asked next Tuesday by the Police Commission to allow Chief Sebastian \$400 for secret service. The Chief asked for it yesterday. He says it is needed, because the McNamara case and a strike are on hand.

At the Courthouse.

HIS NEAREST KIN ALMOST IGNORED.

MOST OF HALF MILLION ESTATE GOES TO OTHERS.

Wealthy Man Who Died in Pasadena Leaves Will Cutting Off Two Sons With Hundred Dollars Each and Wife With Thousand—Bulk of Fortune Left to Nieces.

Charging his two sons with a lack of filial devotion, and his wife with being estranged from him, the will of Frank K. Holyoke of Pasadena, filed yesterday for probate and disposition of \$500,000, cuts them off with a mere pittance in favor of charity and two favorite nieces. To "a faithful employee" he leaves \$5000. A. B. Taylor and Edward F. Hahn are named as executors.

Holyoke, formerly a resident of Bangor, Me., died at the Hotel Maryland in Pasadena on the 23rd inst. In drawing up his will on August 1, last, he gave his age as 47 years and went into detail as to his family grievances.

The will directs that his remains be interred beside those of a daughter in Mt. Hope Cemetery, Bangor, and that a monument be erected at a cost of not more than \$3000, giving his birthplace and the date, together with that of his death and where it occurred. He leaves in trust \$40000 with the city of Bangor, Me., the interest to be devoted to the care and upkeep of the Holyoke burial plot there.

The largest bequests are \$100,000 each to the Children's Home and the Home for Aged Men at Bangor. The Bangor Theological Seminary receives \$15,000 and the Brewer Public Library \$5000.

"My son, Harry Douglas and Sydney Archibald," the will reads, "I leave \$100 each. I make no other provision for them for the reason that for many years past there has been no indication by them of filial affection for me."

My wife, Cora M. Holyoke, I leave with whom I am now living. I leave

\$1000, having on February 5, 1909, by agreement of Sydney, known as a property settlement with her of \$5000. Frank St. Thomas, referred to as a faithful employee, is bequeathed \$5000, and Richard H. Holyoke, a brother, \$4000. The fortunate nieces are Madeline and Marjorie, daughters of Caleb Holyoke of Bangor, another brother. The residue, real and personal, is to be held in trust by the executors until they are 27 years old, when it is to be divided equally between them. In the interim, they are to receive an annuity of \$1000.

Provision is made that in the event of their deaths the residue shall be divided between the Children's Home and the Home for Aged Men at Bangor.

Mrs. Holyoke, is now living in Bangor and the son, Harry, in Boston, but it is stated that the residence of the son is in the city of Bangor. Holyoke arrived in Pasadena from Bangor last February and lived alone at the Maryland. Prior to going to the Maryland, he made his home with friends at No. 510 East California street, that city.

Most of his money, was amassed in the lumber and shipping business. Holyoke's body, will be shipped to Bangor for burial. Funeral services will be held at the Ives-Warren-Ballouy undertaking establishment in Pasadena this afternoon.

WITNESS SUIT.

STILL LOVES HUSBAND?

Without warning yesterday afternoon the divorce action of Mrs. Jeanie Billington, against T. Billington, rich rancher and realty operator, collapsed before Judge Conley with the plaintiff in the witness chair, when she notified the court she wished to withdraw her suit.

But a few minutes before Mrs. Billington had rejected offers of a settlement from her husband's lawyers. The conference was held in the judge's chambers. Mrs. Billington emerged in tears but plainly defiant, and resumed the witness stand for further cross-examination by Attorney Davis.

Then came the sensational close. Mrs. Billington called Attorney Dehm, associated with Attorney Rogers, and said: "I don't want to continue this. I don't want a divorce at all."

She told Judge Conley it was her wish to withdraw the action. Attorney Rogers was summoned from the court and informed the court he was agreed.

"Mrs. Billington flatly refuses to take my advice or any instructions whatever," he said. "She has announced, and picking up his hat and some papers, he left the courtroom."

Mrs. Billington was in the chair apparently in time for a time, but as Judge Conley adjourned court she clambered down and departed on the arm of her sister, crying into her dainty handkerchief.

CRUELTY ALLEGED.

MANY WITNESSES CALLED.

Fully a dozen witnesses were placed on the stand by Attorney Appel yesterday in Judge Monroe's Court in the suit of Mrs. Anna K. Howard against William D. Howard, an auto dealer, for cruelty and attempts by Howard to induce his wife to get a divorce from him. Mrs. Howard is a part of the stories of the witnesses, among them chauffeurs, a cafe man, an auto salesman, the plaintiff and her father, D. R. Parry.

Mrs. Howard was still on the stand when court was adjourned. She testified that from March, 1906, to the present, the defendant has bought her but six suits, while he got one for himself whenever the fancy struck him. She said he repeatedly broached the subject of divorce, once on each offering to pay her expenses to Reno, \$40 monthly alimony and a property settlement.

When she refused these overtures, she said, he swore at her and on another occasion, when she refused to sign some deeds, he acted so violent toward her that she collapsed and has never recovered from the shock.

Through much of the testimony, Howard, of powerful build, appeared untroubled while his wife, frail and suffering from a severe cough, was in tears on several occasions.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

HOLLAND LOVER. Judge Wilbur yesterday found that Charles H. Holland, as contended by his co-partner, H. L. Von Der Kullen in his suit last week, had obtained the signature to the bill of sale which deprived the plaintiff of his interests in the American Electric Company, by threats and intimidation, maintaining the latter's application for a receivership for the business.

HIS DISPOSITION. Because his relatives in other countries, according to his ideas, had better opportunities to make a competence, Domihick F. Walsh, in his will, filed yesterday for probate, left his fortune of \$14,400 to a brother, two sisters, and the children of another brother, who died several years ago.

All the legacies live in Tuberculary, Ireland. Walsh died September 26. The petitioner is Frank H. Shafer.

BARNES TURNS. Attorney Barnes, for a number of years associated with Deane B. Barnson, the so-called divorce expediter, yesterday fruitlessly moved before Judge Houser for a show cause contempt order against the Barnson woman, charging that she was representing herself as a lawyer.

INCORPORATIONS. Home Seeker Investment Building Company, capital \$100,000, incorporators G. H. Wadleigh, Clarence H. Lee, S. W. Odell; Boston Baked Beans Company, capital \$25,000, incorporators George E. Foster, J. V. Fitzgerald, W. S. Smith, R. W. Harper, Charles W. Collins, E. P. Mueller; Foss Investment Company, capital \$400,000, incorporators W. W. Devere, J. Ray Choate, Herbert Williams, E. P. Hughes, W. J. Williams.

GOT THE WRONG LOT.

E. Francis Leo, charged with forgery, was arraigned before Magistrate Williams in the University Police Court yesterday afternoon and held under \$1000 bail for a preliminary examination, the date of which will be set by the court later. Leo is said by Nelson Linden of Venice to have changed the description of a piece of property said him to have that the deed which Linden had gave him title to it he didn't want.

POSTOFFICE CLEANER.

The Electric Renovator Manufacturing Company of Pittsburgh was awarded a contract yesterday for a vacuum-cleaning system for the Los Angeles postoffice at \$2510.

HELP HER KEEP OUT OF PRISON.

SYMPATHY INSTEAD OF CLEMENCY FOR GIRL THIEF.

Special Kind of Probation Is the Cure Recommended for Confirmed Kleptomaniac—Suggestion Will Be Used As Means of Persuading Her That She Is Not a Criminal.

Sympathy as a substitute for imprisonment is the novel plea Deputy District Attorney Shannon will make in behalf of Miss Alice Taylor, if the information for which he has sent corroborates the young woman's statement that she is a kleptomaniac and when alone cannot resist the temptation to steal.

Miss Taylor was arraigned before Police Judge Chambers on the charge of having stolen purses from private rooms. On the motion of the Deputy District Attorney the case was continued. It will be called again on the 18th inst., for a preliminary examination, but Shannon says that the procedure will on all probability be dispensed with in favor of a special probation plan.

It is believed that simple suggestion to the young woman that she is not an abnormal person and can resist the temptation if she will but try, coupled with the requirement that she report to the District Attorney once a month, will have the effect which years of imprisonment could not have.

Shannon has written to the surgeon who operated on the young woman about six months ago in an effort to remove the brain obstruction which they held accountable for her delinquency, asking that they send him their conclusions about the girl.

Police Surgeon Kidder made an unofficial examination of Miss Taylor's head in the Receiving Hospital yesterday afternoon. He found the scars left from the operation. A piece of her skull, removed when she was moved behind her right ear on the theory that her criminal tendencies are caused by abnormal pressure on the brain.

She suffered injury to her head by falling about twelve years ago, and from that time until operated upon she suffered almost continuously from headaches. The operation cured the headaches.

WAIVES READING.

OF ALLEGED LOVE LETTERS.

William M. Fitzpatrick, ex-police officer who, after being once exonerated in police scandals, stepped back into the muddle, was arraigned before Police Judge Frederickson yesterday.

He entered a plea of not guilty and listened attentively while the court read the complaint. His face was expressionless, except at one point, when he mentioned to his attorney, Fred Spring, to waive the reading of a portion of the article. The part he did not wish read was a letter which the police say he wrote to Maude Merrill and Mabel Young, the women in the case.

The ex-officer's bail was set at \$500 cash or \$1000 bond. He hopes to furnish the cash amount this morning.

ARSON CHARGED.

GROCCER SAYS NOT GUILTY.

S. Papale, No. 2156 East Seventh street, arrested Tuesday by Detectives Jones and Erven on a charge of arson in connection with the burning of his grocery, was arraigned before Police Judge Frederickson yesterday afternoon. He pleaded not guilty and was given a preliminary examination Monday afternoon.

John Tatoro, a relative of Papale, is being held in the City Jail as a witness for the prosecution. The fire occurred Sunday night. After it had been extinguished gasoline was found in a can. Near by were several pieces of twisted paper and bits of straw. The fire department suspected that the blaze was of incendiary origin, notified the police and Papale was arrested.

Papale was unable to furnish \$3000 bail and was remanded to jail to await examination.

May Stick It.

Mariana Nicola, a barber arrested on a charge of having stolen a stick pin from a customer, pleaded not guilty in Police Court yesterday and will be given a trial Friday afternoon. Keim said the pin was taken from his

FREEDOM FROM COLDS & HEADACHES
INDIGESTION & SOUR STOMACH
BILIOUSNESS & CONSTIPATION
and other ills, due to an inactive condition of the Liver, Stomach and Bowels, may be obtained most pleasantly and most promptly by using Syrup of Figs and Elixir of Senna. It is not a new and untried remedy, but is used by millions of well-informed families throughout the world to cleanse and invigorate and strengthen the system whenever a laxative remedy is needed.

When buying note the full name of the Company—California Fig Syrup Co.—printed on every package of the medicine.

Regular price 50¢ per bottle, one size only. For sale by all leading druggists.

SYRUP OF FIGS AND ELIXIR OF SENNA
IS MANUFACTURED BY
CALIFORNIA FIG SYRUP CO.

cravat when the barber removed the towel, while shaving him. Several other stick pins were found in towels which had been used, but Nicola protested his innocence.

Police Court Brevities.

L. J. Longworth, J. K. Tweedy and J. O. Woolley, spenders arrested by Motorcycle Officers Harman and Gilpin on West Seventh street yesterday, were fined \$25 each by Police Judge Frederickson.

Rachael Pellagrin, one of the numerous proprietors of blind pigs raided in Sonoma Saturday night, was fined \$100 by Police Judge Frederickson yesterday. The charge was violation of the liquor ordinance.

Filial Dilemma.

GIRL A WITNESS AGAINST FATHER.

EXPECTED TO TESTIFY PARENT CREATED SCENE.

Trial of Dentist Accused of Threatening to Kill Woman Who Is Alleged to Have Acted as Peace-maker in Family Affairs Is to Begin Today in Justice's Court.

When the trial of Dr. Charles A. Kuna, dentist and clubman, charged with having threatened to kill Mrs. Nell Steel, opens in Justice Young's court today spectators will witness the novelty of an only daughter appearing in the role of chief witness for the prosecution.

The arrest of Kuna, according to Deputy Dist. Atty. Keetch and Doran, is the climax of a long series of domestic differences with his wife. Mrs. Steel, who has been a "life-long friend" of Mrs. Kuna, attempted the role of peace-maker. The prosecution expects to show that Dr. Kuna ordered her from his house and threatened to kill her if she ever met her again.

Mrs. Steel finally summoned nerve to tell the District Attorney about it. She related the domestic troubles of the Kuna couple and after an investigation Deputy Keetch issued the complaint.

Miss Ethel Kuna, the 15-year-old daughter of the dentist, is expected to testify to having witnessed the scene and that she heard her parent threaten the life of Mrs. Steel.

According to Miss Kuna, Mrs. Steel is one of her mother's best friends and on more than one occasion nursed her back to health. Mrs. Kuna is confined in a sanitarium in Berkeley where she is undergoing treatment for nervous trouble. She will be unable to attend the trial of her husband, but her deposition has been taken.

CHARGE IS DISMISSED.

W. T. Hewitt, charged with disturbing the peace by quarreling with his brother Tom at First street and Grand avenue about a week ago, was discharged by Police Judge Rose yesterday. There was not sufficient evidence to warrant proceeding with the case and it was dismissed.

"Were all medicines as meritorious as Chamberlain's Colic, Cholera and Diarrhoea Remedy the world would be much better off and the percentage of suffering greatly decreased," writes Lindsay Scott of Temple, Ind. For sale by all dealers.—LADY.

The Gold Note Is A Money - Back Security

No investor has ever failed to have returned to him, on request, the full amount of his Gold Note. This has been the steadfast policy of this Company even in the case of Gold Notes presented before due.

The Gold Note

Gold Notes are issued for as small a sum as \$100. They pay six per cent interest. You can withdraw your money and interest in full in ninety days.

Large and small business blocks, hundreds of homes, thousands of acres of choice subdivision land—all clear, back of real estate mortgages and secured loans back the six per cent Gold Notes. The security totals more than \$6,500,000. The indebtedness of the Company is \$78,333.37, and there is only \$304,900 outstanding in Gold Notes and \$801,000 in Home Certificates. Every \$100 Gold Note has more than \$1800 in security back of it.

Arrangements can be made to purchase a \$100 Gold Note in installments of \$1 or more.

Write a postal or phone today for full Gold Note information.

eral News of Int from Oil Fields.

the meeting of the Independent Producers' Agency at Bakersfield President St. Clair Thoresen of the storage plan adopted by the Agency this week to all the members present. Among other things he said:

"I have this burden of storage and this plan is the only way we can retire storage oil. It is a time for our current amount to pay of the total of our average month. In other words, with a production of 100,000 bbls per day, we must pay for about 1000 bbls the remainder of the month. It is a big lot of oil in storage. We are taking checks. We are taking cash. We are taking oil. We cannot touch it. You see, too, that the total cost of a new plan will be less than we are now paying. It will be a relief to all of us."

St. Clair went on to explain the storage plan, respecting the oil which will rest with the directors of the Agency. These directors will be on the proposition of oil in the storage company's stock therefor. Continued

consider that this storage plan is an important matter that must be before the Agency, but that the Agency has not yet adopted any plan with so much confidence as this. I believe that the Agency's most important crisis has passed. The oil is brighter. Last month all of the largest wells had increased. With the increase in oil prices, we will go on our shoulders to the wheels of the old enthusiasm. I

STORAGE PLAN

IS EXPLAINED.

President St. Clair Thought
Crisis Was Near.

Since New Company Will
Mean Higher Prices.

General News of Interest
from Oil Fields.

At the meeting of the Independent
Producers' Agency at Bakersfield
last week President St. Clair offered
an explanation of the storage plan
adopted by the Agency that are
submitted to all the members of the
Agency. Among other things the presi-

dent said:
"We have this burden of storage to
carry, and this plan is the only way in
which we can retire storage oil from
circulation in current sales. At the
present time our sales amount to about
100,000 barrels of oil. The total of our available
storage is about 10,000 barrels. If we
sell all the oil in storage we get a
check for \$100,000. We are asking this
to relieve the oil from participation
in the market. You must remember,
too, that the total cost of the
storage plan will be 2 1/2 cents
per barrel less than we are now paying
storage."

St. Clair went on to explain that the
plan was not with the directors of the
oil companies that compose
the Agency. These directors will have
to agree on the proposition of placing
oil in the storage company and
pay for it. Continuing he
said:
"I consider that this storage plan is
most important matter that has
come before the Agency, but in all
business career I have never ap-
proached any plan with so much as-
surance, so much confidence as I feel
in this. I believe that the Agency is
in a most important crisis. We have
a hard row to hoe in the past, but
outlook is brighter. Last month's
production of oil was the largest we
have had. I believe the sales are go-
ing to increase. With the retirement
of storage oil prices will go up. If
Agency members will get together,
shoulders to the wheel and
the old enthusiasm, I believe
within six months' time a position
the Agency will be most attrac-

President St. Clair announced that
the necessary to finance the plan
be forthcoming within thirty days
of the meeting. It came out in the
meeting that the Union Oil
company has 47 per cent. of the oil in
storage and about 48 per cent. of the
production. The present production
of the company is about 10,000
barrels a day, which will
be about 100,000 barrels during
the year period the storage scheme
the Agency will cover. The Agency
has about 12,000,000 barrels of
oil in storage.

St. Clair said in favor of the Agency stor-
age plan was seventy-seven to three.

BUENA VISTA GUSHES.

The Buena Vista Consolidated Oil Com-
pany has bought in another big oil
field, this time on section 3, 23-24,
highest point in the Buena Vista
field. The oil is of light gravity, and
it has been reported high over the
market at the rate of 10,000 barrels
a day. The company was carried by the
oil from the town of Taft, three
miles away.

A. Crandall, superintendent of
the Buena Vista Consolidated Oil Com-
pany, refused to give the depth
of the new well, as it is against the
policy of the company. Short-
ly after the well was drilled to about 2000
feet, but at last accounts
was still going. All of the oil in
the well.

Oil Entertains Visitors.

The visiting of the Sierra Madre
oil field, the local chapter of the Ameri-
can Institute of Mining Engineers
entertained at dinner the members
of the Institute who will be in the
area of the oil field. The dinner was
given by the local chapter of the
Institute. The dinner was given by
the local chapter of the Institute.

Universal Well Flow.

The Universal Oil Company's well
on section 22, 26-27, in the Lost
Horse field, which work had been stopped
for some time, has been started
again. The well is now flowing
at the rate of 10,000 barrels a day.
The well was drilled to about 2000
feet, but at last accounts
was still going. All of the oil in
the well.

Queen Well's Condition.

Field J. Wilson, manager of the
Queen Development Company, said
today that the casing in the well
has been put in good condition.
The well has been put in good
condition. The well has been put in
good condition. The well has been
put in good condition. The well has
been put in good condition. The well
has been put in good condition. The
well has been put in good condition.

News Notes and Personal.

Mark Foxon of the California
Oil Company, operating in
the field, came down from
San Francisco the other day to visit
the field.

R. L. Foster, who is closely
connected with the oil industry of
the field, came down from
San Francisco the other day to visit
the field.

William Schall, formerly head
driller for the Bohemian Oil Com-
pany in the Coalinga field, left last week
for New York, whence he will sail

Whatever Claims the Tailor May Make Benjamin Clothes Duplicate With the Positive Elimination of Risks

—You Are Sure of the Fit, Fabrics, Finish
Before You Obligate Yourself

This is real clothes satisfaction, to know that dependable
attire is at one's command with the elimination of the
tailor evils usually attending one's outfitting.

Benjamin clothes are pre-eminently the world's best.
Judged by the style of them; the fabrics used in them
and the workmanship bestowed upon them they are
as near perfect as skill, plus modern method, can pro-
duce.

In price they are within reach of 999 out of every
1000 men in Los Angeles, so they are within your reach.

Common Sense In Buying Men's Clothes

Put your common sense to work in buying Clothes, just as you would put
it to work in the purchase of any other commodity.

Men's Suits and Overcoats cost money to produce, like everything else.
And like everything else, there is a standard of value in garments that pretend
to have any real quality at all.

You can't buy genuine \$25 Suits at \$15, any more than you can buy a \$5000
piece of real estate at \$3000—or any more than you can buy sugar, flour or any other
staple at a reduction of forty per cent.

As a matter of fact, REAL \$25 garments cost the
dealer a whole lot more than \$15 apiece. And we
don't care how big a volume of business he is doing
—the fact remains.

We've been in the Clothing business in Los Angeles for
over half a century. We've built up our immense business
on the "Square Deal" policy. We always make our state-
ments good.

And so, when we tell you that at \$15, \$18, at \$25 and up to
\$40 we give you standard, staple values in a Suit or Overcoat,
you can absolutely bank upon the fact that we deliver the goods.

Come in and select your

Louis Chittenden of the Bohemian
Oil Company, after spending a few
days in the Coalinga field, has re-
turned to his home in Hanford. He
made an inspection of the Bohemian
property.
Assistant Manager Stratton of the
Union Tool Company of Los Angeles
has returned from Coalinga, where
he went the other day on business
for the company.
James Dearia, an official of the
Caribou Oil Company of Coalinga, is
now on the way and will remain for
several days inspecting the property.
R. S. Haseltine, general manager
of the British Consolidated Oil Com-
pany, Ltd., has returned to
Coalinga, after an inspection tour that
included the company's properties in
the Midway district. He also visited
Bakersfield.

Capt. John Barnson and Joseph
Sealey of the W. K. Oil Company, and
Mr. Boole of the Hibernal Oil Com-
pany, made a recent trip from San
Francisco to Coalinga and return in
an automobile after inspecting sev-
eral oil properties.
W. R. Hamilton and Ralph Arnold,
representing the Hammon interests
that are attempting to secure Coalinga
properties for an English syndicate,
recently visited Coalinga and the Kel-
tlemann Hills and returned to San
Francisco.

William Schall, formerly head
driller for the Bohemian Oil Com-
pany in the Coalinga field, left last week
for New York, whence he will sail

to Colombia, where he has accepted a
position in the oil fields.
Among the Coalinga oil men who
attended the agency meeting at Bak-
ersfield were W. C. Reilly, S. A. Guib-
erson, Jr., W. R. Guiberson, R. S.
Haseltine, Guy H. Salisbury, E. R.
Walker, H. Henshaw, Henry Kerr,
George Scott, Edward Baker, W.
Baker, A. F. Borst, R. W. Dallas and
W. F. Fisher.
Rudolph and Robert Pollak of San
Francisco, interested in the Canadian
Coalinga Oil Company, are now in the
field inspecting the new well recently
brought in by the company.
L. A. Crandall, interested in many
oil properties as owner and manager,
spent last week in the Maricopa field,
where his interests are extensive.
Edward Gillette, who owns oil
properties in the Maricopa field, will
install several electric motors for
drilling purposes, especially on
Twenty-five Hill.

A vast amount of ill health is due
to impaired digestion. When the
stomach fails to perform its functions
properly the whole system becomes
deranged. A few doses of Cham-
berlain's Tablets is all you need. They
will strengthen your digestion, invig-
orate your liver and regulate your
bowels, entirely doing away with that
miserable feeling due to faulty diges-
tion. Try it. Many others have been
permanently cured—why not you?

New Fall Coatings

Double-faced materials, with plaid or plain
backs; Chinchilla, Scotch Effects, Caracul,
Astrachan, etc., colors and black.

Prices Range
\$2.25 to \$6.50 yd.

Not for a long period has the coat held such an
important place in Milady's wardrobe, as it does
this fall. Our new line of coatings is both ex-
tensive and comprehensive, and merits the im-
mediate inspection of every woman in quest of
distinctive styles. The weaves we show are re-
garded with high favor by the best tailors, and
are especially adapted for making utility coats.
Coats of this character serve so many purposes
that they are well nigh indispensable.

A Special!
\$2.25 Value Black Broadcloth
at
yard **\$1.75**
When you consider the popularity and desirability of
broadcloth, an offer like this is doubly important. The
cloth is 50 inches wide, beautifully finished and a fine
black.

AUTUMN SALE Household Linens

The great success of our linen sale is due to the char-
acter of the goods offered and the great savings in
price. The large quantity of linens already sold this
week is the best proof that our values are unusual.
Space does not permit us to mention all of the many
opportunities to save—but we note the following:

\$1.25 Bleached Linen Damask. In large line of good designs. Sale price, yard	\$1.00	15-23c Linen Crash. All lin- en, with red striped border. Sale price, yard	12 1/2c

Events in Local Society

Miss Gladys Rouse,

of Florida, who is visiting relatives in this city, and in whose honor several parties have been given.

MRS. G. ALLYN LONG of South Pasadena is entertaining a good deal just now on behalf of her friend, Mrs. Blake, and a number of functions are being held at Mrs. Long's home. Mrs. Long is a charming amateur vocalist and consequently her entertainments usually include a musical program.

Mrs. Una Nixon Hopkins, popular society woman of Congress place, Pasadena, has recently undergone a serious operation in Rochester, N. Y., where she has been visiting for a few months. News comes that she is regaining strength rapidly and her friends hope she will be sufficiently well to travel next week. At all events she expects to be home by the end of the month. Mrs. Hopkins is an author of considerable ability, and is a very well-known figure in Pasadena society.

The new chapter of the Daughters of the Revolution, known as the Los Angeles Chapter, will hold a smart reception at the Women's Clubhouse on election day. There are only twenty-five very exclusive members of this new chapter and the list will be issued on the day of the reception. Mrs. W. W. Sullivan will preside. The new chapter is entirely under her organization. The date chosen is rather unfortunate, for quite half of those twenty-five fair Daughters are absent on the day of the election, and instead of their last ounce of strength on propaganda all day on the 16th.

The new chapter was formed, it is whispered, by the more elevated souls amongst the Daughters whose sensitive spirits were chilled with the unbecoming name of the old order, "Reichsdaughters," and really one can't help sympathizing with them. Mrs. W. W. Sullivan has just met with a sad loss in the death of her mother, Mrs. Mary Johnson.

First Meeting of the Season.
Members of the Magnolia White Club will enjoy their first meeting of the season this afternoon at the home of Mrs. C. F. Jones of No. 545 Hollywood boulevard. Other members are Miss Ada Dryden, Mrs. C. B. McCollum, Mrs. M. E. Spinks, Mrs. Will A. Jenkins, Mrs. E. D. Parker, Mrs. G. W. Jordan, Mrs. Carl Schuler, Mrs. M. M. Symmes, Mrs. Frank Van Horn, Mrs. H. K. Van Horn and Mrs. William Thornton.

Garden Party.
Society is interested in the garden party to be given Friday afternoon and evening at the Robert Marsh residence at Westchester for the benefit of the Immanuel Presbyterian Church Aid Society. The hostesses and women in charge of the different booths include Mrs. Robert Marsh, Mrs. W. S. Pless, Mrs. Hugh K. Walker, Mrs. Joseph D. Bedford, Mrs. E. E. Sullivan, Mrs. W. C. Patterson, Mrs. Z. D. Mathews, Mrs. F. S. Hardin, Mrs. O. T. Johnson, Mrs. Fred Johnson, Mrs. Oliver, Mrs. W. W. Hitchcock, Mrs. Henry Henderson, Mrs. William Ray, Mrs. Doctor Page, Mrs. W. I. Lacy, Mrs. Pembroke, Mrs. E. K. Hum, Mrs. W. D. Mathews, Mrs. L. E. Blakesley, Mrs. Brown, Mrs. G. A. Brock, Mrs. J. B. Thomas, Mrs. W. A. Hargrave, Mrs. E. Fordy, Mrs. J. M. Clute, Mrs. Allison Barlow and Mrs. Cone.

Bradley-Burgess Wedding.
The home of Mr. and Mrs. H. A. Burgess, No. 955 Blaine street, was the scene of an interesting wedding last evening, when their daughter, Miss Jane Irene, became the bride of Frank E. Bradley, son of Mrs. Margaret Bradley of St. Paul avenue. The ceremony, which occurred at 8:30, was performed by Rev. Hugh K. Walker, pastor of Immanuel Presbyterian Church. The wedding music was played by Mrs. Paul Robinson, a girlhood friend, and before the ceremony her sister, Mrs. Hettie Lou Murphy, sang "Dawn."

The bride was attired in white embroidered crepe de chene over satin, made on train, carrying a shower bouquet of lilac of the valley. She was

EXTRA CALL MAIN POINTS.

(Continued from First Page.)

women of Los Angeles will be prevented from voting at the December city election.

And if the initiative and referendum is added to the Constitution any law facilitating their exercise of the franchise cannot become effective for ninety days, so that they will be denied their "rights" for an additional three months, unless such an act could be deemed for the "immediate preservation of the peace, health or safety of the State."

Of course no action need be considered if the suffrage amendment is defeated.

APPORTIONMENT NEXT.
Next in importance to suffrage is apportionment. And on this question members of the Legislature have learned, quite positively, that the Governor will veto any apportionment bill that does not justly distribute the 120 members according to population. In other words the Randall and Hamilton bills which seek to ignore the basis of population and penalize cities for the benefit of mountain wastes are up against the executive taboo. It also means that the Governor favors the apportionment which gives San Francisco, Los Angeles, Alameda and Santa Clara counties the membership their population entitles them to and no more. With the evidence of the Governor's positive stand comes word that San Francisco is willing to accept his conditions and not try to obtain all excess or tie up the session.

The preparation of the apportionment bill is in the hands of Senator N. W. Thompson of Alhambra. He has just returned from the north and assurance that there will be little trouble in bringing in a bill that will pass. He will probably call the Los Angeles delegation together next week and discuss the situation, especially in view of the Governor's attitude. To the Los Angeles delegation the method of subdividing Assemblyman C. H. Randall, whose bill deprives both San Francisco, Los Angeles and other centers of population of many members. It will be more plain to him that all he can accomplish by pressing his bill is to prevent any apportionment, or at best a veto.

The third matter of importance is the State Printer Shannon. It is now regarded as certain that the Governor's call will include his case with the end in view of abolishing his office entirely and creating a new head, appellate by the Governor, or a new State commission. The last session passed a law making the office appointive, but this law would not be available if the office is abolished entirely, and this is apparently the only way to get Shannon out. The State Printer is to be before the bar of the Senate in contempt of one of its committees and the climax promises to be his being put on the "skids."

STATE FINANCES.
State finances require a special session alone. Under the new system of dividing State and local taxes the State

must repay to counties the amounts they lose by elimination of railroad property. To provide for this the Legislature appropriated \$650,000 for this year and \$650,000 for next year. The amount for this year is short \$100,000, according to State Controller Nye, and the deficiency can be met only by legislative action. Next year's amount is regarded as too great but it is not deemed safe to reduce it. The action means no tax levy, for the treasury has ample money but lacks the legislative authority to pay it out.

If none of the amendments should carry a special session will be necessary to act on this matter of finance, it is believed.

A presidential preference law is also a possibility—really a little more than that, according to those who have been in touch with the situation. The Governor has been asked a number of times to include this subject. Democrats and "reformers" have urged it. But with the memory of the refusal of the Lamer-Johnson machine to permit amendment of the present law so far as it affects the selection of delegates to national conventions, it seems like a vain hope that it will be included in the call. Still it offers some opportunities to the Lamer-Johnson machine to control presidential potentialities next spring, but no better than the present system which the machine protected last winter from any revision.

If the judiciary amendment abolishing justices of the peace carries it will be necessary to create inferior courts, especially if the amendment terminates these ancient courts immediately after its adoption. The success of the railroad commission amendments also would give opportunity for the Governor to include utilities legislation, but there is no assurance that he will.

PASSING OF A GOOD WOMAN.

Noted for Modesty and Benevolence, Wealthy Woman is Called to Rest—Long Life of Helpfulness.

Mrs. Mary J. Rankin died yesterday morning at the home of her niece, Mrs. J. E. Fullwood, No. 1131 West Adams street, aged 82 years. Mrs. Rankin was a native of St. Louis, Mo., but has lived in this city many years, making her home with her niece. She was possessed of abundant means, and was one of the most benevolent women in the city. She has at frequent intervals made notable gifts to Occidental College; a few years ago she gave \$10,000 to Immanuel Presbyterian Church, for the erection of a new Sunday-school addition to the church, of which she was a member, and a year or so ago, presented to her pastor, Dr. Hugh K. Walker, the beautiful home in which he lives on South Flower street. Mrs. Rankin was an exceedingly modest woman, and always took exception to her benevolence being made public. The funeral will be held at the residence of Mrs. Fullwood, at 10 o'clock Friday morning, conducted by Dr. Walker. She leaves three sisters residing in the East.

Trying To Decide Which Piano?

See the—
Mason & Hamlin

It will itself convince you that it fully justifies the enthusiasm in its praise you have heard in every musical circle of late.

There are other meritorious pianos and it is natural for those who have already bought to recommend such pianos, but if you haven't purchased yet, if you are unprejudiced, if you will really investigate the respective merits of the high grade pianos you will gravitate irresistibly to the Mason & Hamlin.

It embodies in its construction the desirable features of proven merit found in other high-grade pianos and has in addition the TENSION RESONATOR, that wonderful device for multiplying and perpetuating that rare quality, Resonance, without which the voice, violin, or any instrument must be considered a failure.

It costs more in certain styles than any other piano, of course, but long after the price is forgotten, the quality will be a constant source of pleasure and satisfaction.

Cuba's Crop Disaster —And What It Means To Cigar Smokers

There's going to be a scarcity of good cigars—and very shortly. You are going to be hunting for a smoke such as only choice Havana tobacco can give. Anticipate this difficulty!

Try a Van Dyck "Quality" cigar today. It's the one good cigar which will remain the same for seasons to come.

VAN DYCK "Quality" Cigars

There are no profits against the Cuban crop disaster. Our experts put the best of the best crops that have ever been produced. Havana tobacco is the finest product. These cigars are—made with a new kind of the finest product of Cuban tobacco—selected under the watch of our Cuban warehousemen. And each cigar will be inspected by our factory inspectors before it is sent to you. These cigars are put into the best of our Cuban cigar boxes.

Today it costs more to manufacture Van Dyck Quality cigars than ever before. Our expert selection, and our many inspections, remain the same. Yet not one penny have we added to the Van Dyck price. Choose a "Van Dyck" at random from any cigar case. Compare its workmanship with that of the most expensive imported cigar you can find. Then you'll realize something of the rare value that is yours in every Van Dyck "Quality" cigar.

RECORD CROWD OF 14,000 WATCHES VERNON LOSE

When Walter Carlisle Tied the Score.

In the ninth inning Carlisle got to first on a fielder's choice, Kane at second. Carlisle then went to second on Rapp's error; then to third on Ross's out. He scored on a wild pitch.

Frenzied Fans.

ROOTERS RENT ZENITH WITH DEAFENING DIN.

Record Breaking Crowd of 14,000 Vehement Vernonites Create Chaos As Pennant Battle Rages—Only Thirteen Inch Gun Could Have Added to Pandemonium Aimed to Help Hap's Hopes Win.

BY OWEN R. BIRD.

FOURTEEN thousand frenzied rooters sat through two hours and fifty minutes of nerve-racking baseball at Washington Park yesterday afternoon while the Beavers and the Tigers were struggling for the lead in the present series. Never before in the history of the great national pastime in the South has such a gathering been seen. Chaos reigned supreme from 2 o'clock, and during the crucial moments of the game Bedlam was nothing compared to the awful burst of noise that greeted every successful Vernon play.

While the tenth and eleventh innings were being played, the fans were all over the field, so the space occupied by the spectators was far greater than that used for the playing of the game. When Vernon came off the field after the first half of the tenth, the last rays of Old Sol were leaving the high spots on the left field fence and the remainder of the game was played in the twilight, with Lady Luna shining brighter every minute.

If disaster had not befallen the Haps in the fatal eleventh the game would have been called, as it was getting too dark to see the ball. It was a great game, not so much for the brand of ball played, but from the point of what depended on the outcome of the game. Every man in a baseball suit who was on the grounds yesterday was keyed to concert pitch and some of the errors were due to this rather than anything else.

There was a strained atmosphere around the Vernon bench all through the battle, the old jolly spirit was missing and every man was serious. Hap Hogan, himself, looked altogether different from his usual mien. He looked like a man on the edge of a nervous breakdown, but held himself in by sheer nerve as the tide of conflict set against his tollers.

All the effort and strain of the whole season was pictured on Hap's face during the last four innings, and when the game was over he had the look

(Continued on Fourth Page.)

Slashing Battle.

TIGERS DROP FIERCE ELEVEN INNING GAME.

Wild Throws by Patterson and Burrell Give Beavers Most Exciting Contest of the Season—Hits and Errors are Plentiful—Each Team Forced to Use Two Pitchers.

BY GREY OLIVER.

PORTLAND, 9: Vernon, 7. Eleven innings. Two errors by Patterson and one by Burrell yesterday caused the loss of the greatest game that Vernon ever played in this league and the largest crowd of fans that ever saw a ball game on the Coast silently fled out of the grounds strong in the belief that Vernon MIGHT have won but for these wild throws, in the eleventh inning.

The chances are that Patterson's bad throw to third in the eleventh was responsible for the loss of the game to the Tigers, for had he played perfectly the game would doubtless have been called on account of darkness. His failure to hold it, practically decided the most exciting contest ever seen in this city in all the years that baseball has been the leading sport here.

Why, you couldn't hear yourself think half the time. A mob of 14,000 howling men and women can make a lot of noise in any ball game, and these yelling fanatics helped themselves out with every noise-making device they could think of bringing to a ball game. There were electric automobile horns connected with batteries that gave forth discordant never-ending squawks during every minute of the two hours of play; megaphones that bawled meaningless sounds; tin horns that brayed like mules; cow bells that reminded one of the farm, and such whistles and yells and screams that one only hears at a ball game.

How the men ever played ball no one could guess. They went about their work in the dark, as it were, for they could not hear the umpire call a ball or a strike. They saw him move his right or left arm up and down for a ball or a strike, but they could not hear him yell. A dozen different noises from 5000 throats make a medley that no one can distinguish, and there was hardly a moment in the two hours that 5000 men and women

(Continued on Fourth Page.)

WILL WIN FLAG, SAYS M'CREIDIE.

Walter McCreddie, leader of the Portland Beavers: "We are going to win the flag again. The game yesterday showed that we have the better club. We closed at the bat with the hard-hitting Vernons and had the best of it in the fielding. And fielding is going to cut a big figure in this series. Vernon, in fact, eventually lost the game by falling down in her fielding at a critical point, although I think the game was rightly ours in the regulation nine innings. The crowd was simply a revelation to me; this must be a wonderful baseball town."

HAP FEELS SURE HELL WIN OUT.

Hap Hogan: "Well, thank God, we have another chance at 'em. Our team is shot to pieces by the accidents that crippled Johnny Kane and Hoop; but we are not crying over it in the papers. We will outgame them and get that flag yet, and don't you forget it. Kane will be in the game Friday and Hoop will be right by Saturday."

Lindsay Thrown Out at the Plate.

In the first inning, Chadbourne doubled, Lindsay scoring him with a double. Lindsay went to third on Rapp's single. Ryan hit to McDonnell and Lindsay was thrown out trying to score.

Battle Stories of The Civil War

The War Day by Day Fifty Years Ago.

CLIII.

October 3, 1861—An Unusual Incident in North Carolina Came to an End With the Arrival at Hatteras Inlet of the Twentieth Indiana Regiment, After a Grilling Retreat of Forty Miles Through the Soft Sand of a Sea Beach.

(Copyright, 1911, by Associated Literary Press.)

FIFTY years ago today seven companies of the Twentieth Indiana Regiment numbering about 500 men, ended a grilling retreat of forty miles along the sea sands of Hatteras Island by their arrival at the inlet of Hatteras. They had not set out six days before on an expedition intended to strengthen the Federal hold on the coast of North Carolina.

The Hatteras inlet fort, since their capture by a naval force on August 29, had formed a base from which the Federal command hoped to close the great sounds of the Carolina coast. Pamlico and Albemarle, and put an embargo on the trade of New Bern, the chief town on the former, and Elizabeth City and other towns on the latter, and establish themselves in the rear of Norfolk.

But the situation of the Federal base was such that it was being made toward those ends. The waters of the sounds were shallow, and the Federal at the inlet had only three small steamers at their disposal to navigate them, while the Confederates had succeeded in arming six or eight.

The situation of the fort was a poor one from which to conduct offensive operations. They stood on the south end of Hatteras Island, a thin strip of sea sand forty miles long that forms part of the great barrier beach separating the North Carolina sounds from the ocean.

Hatteras Island is not more than a mile wide, being a series of sand hummocks, clothed in scrub growth and a few patches of pine woods and supporting in 1861, a population of about 100 people, whose means of living was derived chiefly from fishing or picking the wrecks that came frequently on the great beach.

A glance at the map will show that the barrier beach is pierced at irregular intervals by inlets, affording communication for shallow craft between the ocean and the sounds.

The deepest of these is Hatteras inlet, the capture of which was undertaken by the Federal because of the shelter it afforded privateers and blockade runners.

Next north, and about forty miles distant, was Loggerhead inlet or Chincocomaco, at the north end of Hatteras Island.

Loss of Supplies.

Lying between Pamlico and Albemarle sounds and commanding the channel between them, is Roanoke Island. Here the Confederates, in the alarm of the North Carolina people following the fall of the Hatteras inlet fort, had stationed a force, and thrown up earthworks.

Believing that they might advance from that point and threaten his position, Col. R. C. Hawkins of the Ninth New York regiment, in command of the post at Hatteras inlet, decided to send a force to hold Chincocomaco, and chase the Twentieth Indiana regiment for the work.

The regiment was dispatched on September 25, aboard two unarmed steamers, arriving safely and landing unmolested. Their tents, ammunition and food were landed upon a small armed steamer, the Fanny, but owing to delays the vessel did not leave Hatteras until October 1.

Meanwhile the Confederates at Roanoke Island had learned of the Federal expedition, and Col. A. R. Wright of the Third Georgia regiment, commanding the post, lost no time in preparing to break it up.

Loading 150 of his men on three steamers, the Curlew, Raleigh and Junco, he steamed down the sound to Loggerhead, arriving just as the Fanny's crew were beginning to send the Indiana men's supplies ashore in a barge.

The Confederate steamers opened fire on the Fanny, and their fire was returned. Neither side scored a hit, but at the end of half an hour a white flag appeared on the signal staff of the Fanny in token of surrender.

The sailor men of the Fanny's company now ran the steamer aground, took to the boats and rowed ashore, leaving Capt. I. V. Hart of the Twentieth Indiana, who had hoisted the flag, to surrender the vessel.

The Confederates quickly came alongside, made prisoners of the captain and the twenty-four soldiers who had come with him to guard the stores, and manning the Fanny, pulled her off the sand and added her to their navy.

Some of the ammunition on the Fanny and a barrel or two of bacon had been thrown overboard during the firing, but the rest of her cargo, valued at nearly \$100,000, was intact. The Confederate colonel was thus able to supply his own command with everything needed for a regiment, at the expense of the enemy, and the Third Georgia was by this happy stroke, put in the way of wearing the excellent overcoats of the Twentieth Indiana, through the winter storms that were coming.

Retreat Begins.

The surrender of the Fanny having taken place three miles off the shore, where the vessel had anchored by reason of shallow water, the men of the Twentieth Indiana could do nothing to prevent it.

Marooned on a desolate beach, without tents, ammunition or supplies, and their only food the rations they had brought with them in their haversacks, the soldiers could now only ground their own safety. A messenger was sent out to ride the forty miles of sand between the camp and the fort, with an urgent request for reinforcements and supplies.

Col. Brown was apprehensive that he might be attacked before help could come. His fears were not groundless, for on the afternoon of October 3, the enemy appeared off the beach with six small steamers and a large force of men on foot.

While the steamers were throwing shells into the Federal camp a body of men were landed above and below the beach to accept battle if offered.

Night coming on before the Confederate force were able to invest the camp in the rear, Col. Brown decided to retreat before daylight. This he did successfully, the morning finding the entire command plodding through the sand on the ocean side

of the island, headed southward for Hatteras inlet.

One of the men who made the march thus described it: "The sun was shining on the white sand of the beach, heating the air as if it were a furnace. The men had neither provisions nor water. Col. F. Leut. Logan, was there, and he was in the advance, and Co. K, Capt. Reid, was detailed as a rear guard, and well he performed his duty, picking up stragglers and keeping the enemy in check. Several times the enemy advanced in force and we halted to give him battle, which he declined.

"The first ten miles was terrible. No water, the men unused to long marches, their feet sinking into the heavy sand at every step, and the heat to be gained below in order to join Co. F to prevent their being cut off. As the regiment pushed along man after man would stagger from the ranks and fall upon the hot sand. Looking back, I saw our colonel struggling along with his men, having given up his horse to a sick soldier.

"But the most sorrowful sight of all was the soldiers leaving their homes, they came in seen in groups, sometimes with little carts carrying their provisions, but mostly with nothing, feeling for dear life, mothers carrying their babies, fathers leading along their boys, grandfathers and grandmothers straggling along from the homes they had left behind.

A Strange Situation.

"We still toiled on with the heat most intense and no water. Hunger was nothing compared with thirst. It was maddening. The sea rolled at our feet and nothing to drink. I started to take a scout to watch the movements of the enemy's vessels. I skirted the sound for some ten miles. In every clump of bushes I found men utterly exhausted. The enemy's vessels were now nearly opposite, steaming down the sound to cut off our retreat. I would tell them this, but they would say they did not care. They would do that.

"Near sunset I caught sight of our regiment drawn up in line of battle on the beach about a mile distant. Joining them, I found that the enemy were reported in force in front.

"We marched on, with skirmishers ahead, until we reached a narrow inlet about five miles above Hatteras lighthouse. Here our great danger was seen at once. The fleet of the enemy had drawn up in line so as to sweep the beach and render a narrow escape impossible, but had neglected to land their men.

"It was now near twilight. The clouds in the west reflected the bright tints of the sun and showed us the enemy in the foreground.

"In the east heavy gray clouds lowered, and our uniforms corresponding, hid us from the enemy's view, as we silently stole along, the roar of the surf drowning the footsteps of the men and the commands of the officers. Yet, every little while, we would watch, expecting to see the flash of the enemy's cannon, or hear the report of a bursting shell in our little band.

"At midnight we reached Hatteras lighthouse, having made a march of twenty-three miles. Here we found water, and using the lighthouse as a fort, we camped for the night."

Naval Vessels Help.

The worst of the retreat was now over, as two vessels of the navy had arrived off the sea beach to protect the regiment. These were the steam frigates Susquehanna and the steamer Monticello, that had been dispatched from Hatteras inlet.

At daylight Capt. J. L. Lardner of the Susquehanna discovered the Indiana men encamped in a circle around the base of the lighthouse. Their condition was rendered miserable by a heavy rain. Boats from the ship carried them food and an assurance of protection.

By this time the enemy had landed a force at a point above the lighthouse, with the intention of overrunning the retreating regiment. This force was sighted by the Monticello, which opened fire on it at a range of three-quarters of a mile. The enemy sought cover in a woodland. Their steamers firing over the narrow strip of the island, endeavored to engage the Federal ship, firing from the ocean, but the shot fell short.

The Monticello had been firing about two hours when two men were seen coming down the beach, making signals. An armed boat was sent to bring them off. As the boat drew near the beach the two figures on the sand were "covered" by the muzzles of a dozen muskets.

"Upon the boat nearing the beach the men took to the water," says the official report of Lieut. B. L. Braine, commanding the Monticello. One of them was successful in reaching the boat—Private Warren O. Haver, Co. H, Twentieth Regiment, Indiana troops. The other man, Private Charles White, Co. H, Twentieth Regiment, was unfortunately drowned in the surf."

Official Reports.

Difficulty in landing their men on the shallow shore off the sound and the fire of the Monticello prevented the Confederates from massing a sufficient force to capture the Indiana regiment.

By afternoon Federal reinforcements were seen marching up the beach from Hatteras inlet. These consisted of about 500 men of the Ninth New York Regiment. The combined force now marched to the forts at Hatteras inlet, where they arrived in the evening.

The evening was now cold and stormy, and the condition of the Indiana troops, without proper clothing or camp equipment, was extremely trying. Col. Hawkins made requisitions for clothing for them on Maj.-Gen. John E. Wool at Hampton Roads, which the general reported he was unable to meet.

"Clothing we have not on hand to issue," he wrote in an official report to Washington. "We have a large number of men greatly in want of clothing at camps. Hamilton and Butler (Hampton Roads.) Many men parade with only drawers and shirts. I have again and again urged the quartermaster-general to send us

NO INDIGESTION OR SICK, UPSET STOMACH

DIAPESIN STOPS FERMENTATION AND ENDS WORST CASE OF DYSPEPSIA IN FIVE MINUTES.

Why not get some now—this moment, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapessin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapessin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take from stomach and cleanse the stomach and intestines, and besides one single dose will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapessin works, your stomach really gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all Stomach Misery is waiting for you as soon as you decide to take a little Diapessin. Tell your druggist that you want Pape's Diapessin, and he will want to become thoroughly cured this time.

Remember, if your stomach feels out of order and uncomfortable now, you can surely get relief in five minutes.

"As the regiment pushed along man after man would stagger from the ranks and fall upon the hot sand. Looking back, I saw our colonel struggling along with his men, having given up his horse to a sick soldier."

The retreat of the Twentieth Indiana was the subject of an official report from Col. R. C. Hawkins, commanding at Hatteras inlet, which Gen. Wool indorsed as "highly interesting." The colonel having said that the affair would never have happened had he been properly supported by "an ungrateful government."

He was promptly relieved of his command, and Brig.-Gen. Joseph K. F. Mansfield, recently in command at Washington, was sent to Hatteras inlet to take command there, and report on the loss of the Fanny and the affair of the Twentieth Indiana.

About the same time the Confederate government ordered Brig.-Gen. Daniel R. Hill to take command in North Carolina, where operations on a more extensive scale were anticipated. The people of the State were much elated by what they termed the "Chincocomaco races."

Hatteras inlet, which remained at the disposal of the Federal government, "This position is no base for operations into the interior." President Lincoln had no idea of giving it up, however.

"There are many political considerations of extreme importance, which, in the opinion of the President, position at Hatteras inlet," wrote Mr. McClellan to Gen. Wool. "In a military sense, it is important to hold it, both to prevent the tide and to maintain a base for ulterior operations projected in that direction."

For tomorrow, Garibaldi Offered a Union Commission.

ONLY PRAYERS FOR FRACTURE.

HUMANE SOCIETY JAMES DOY'S FATHER INTO COURT.

Lat Ordered to Receiving Hospital, Where Surgeons Find Arm Is Seriously Injured—Assured That Hurt Was Received Two Weeks Ago, Only Prayers and Water Used.

Complained against by Humane Society officials because he contented himself with the simple expedient of trying to cure a 11-year-old son's fractured arm with heat and cold water, applications and prayers, Charles W. Watson in the Juvenile Court yesterday asserted he had often healed his little ones' ailments by reading the fifth chapter of St. James to them.

Today the boy will appear in court again with his father, Judge Wilbur did not intimate what disposition he will make of the case.

According to the Humane Society's informant, Prentice sustained his injuries more than two weeks ago. The society did not learn of it until last Saturday. At that time the father said he would secure medical attention for the lad.

It was learned by the Humane Society officers on Monday, however, that the boy had been known from his home, Avenue 53 and York boulevard, and it was not until yesterday that they found him.

In the opinion of Police Surgeon Wright and Dr. Sedis, the boy will never recover the full use of his right arm. When he was put under the influence of ether in the Receiving Hospital it was found impossible to move the forearm more than a few inches.

The bone is broken about an inch above the elbow and the two bones of the forearm were seen to be hopelessly dislocated.

The x-ray pictures were not satisfactory and after the arm had been manipulated for several minutes the surgeons agreed it would be better to let the boy rest until morning and then lay the bones bare and operate.

A supply of healing serum surrounded the breast with a bandage, and had the bones been set at that time the injuries would have healed quickly. Inattention resulted in the healing secretions settling into the sockets and places where the bones should have been replaced and in hardening and setting it formed a callous which keeps the elbow out of place.

Railroad Man Dead.

News was received in Los Angeles yesterday of the death of Fred Trethaway at Jamestown. Trethaway was formerly employed in a railroad office in this city.

Chilly Nights and Mornings—Heater Time

Buy now!—and here where the stocks are new—where only best makes are carried!

There is an almost endless number from which to select, and whatever your requirements, whatever your price, you'll find the Heater that will be most satisfactory. Note those featured here.

New Method Gas Heaters

This has a copper front that is cheerful and pleasant to look at. Very economical. Fully guaranteed. **\$3.50**

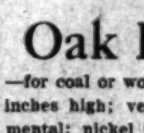

Oil Heater \$2.95

The well-known "Perfection"—than which there is none better. These are fully guaranteed by us to be odorless—a necessary point of consideration when purchasing. Extraordinary at **\$2.95.**

Gas Radiators \$2.95

Like cut. This has four tubes, cast top and bottom. The front prism make it very bright and cheerful.

Oak Heater \$6.50

—for coal or wood. Is 42 inches high; very ornamental; nickel trimmed.

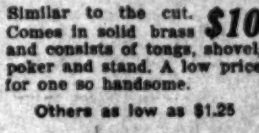

Air Tight Heaters \$1.58

At this price you get an 18-inch size heater. The popularity of the Air Tight Heater comes from its being such an economical way of keeping the room warm. Heats very quickly.

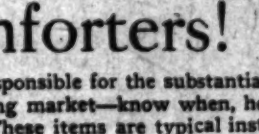

Gas Jet Heaters at \$1.50

It costs only about 1/2 cent an hour to use these convenient jets for a large room.

Hot Blast Heaters \$8.50

A most ornamental and practical model. Stands full 41 inches high. A big leader!

Blankets! Comforters! Get Yours Today

Good generalship and careful planning are responsible for the substantial savings in this timely sale. We keep in touch with the market—know when, how and of whom to buy and the result is noteworthy just when you appreciate them most. These items are typical instances.

Long Nap Cotton, Pr. \$1.25

Heavy, fleecy and warm. Come in white, gray or tan, with neat colored border; and that they are "extra" value you'll admit.

Wool Nap Blankets, Pr. \$1.95

In white, gray, tan or plain, with colored border. A heavy grade that is delightfully fleecy and warm for these cool fall nights.

Largest Size Wool Nap, Pr. \$2.75

For double beds. White, gray or tan, in a quality that will wear extremely well. Exceptional values that we recommend.

Silkoline Comforters, Ea. \$1.25

Large double bed size and have pure white cotton filling. Nicely tufted and come in a good variety of attractive patterns.

Extra Large Comforters, Ea. \$1.50

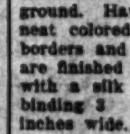

Both sides of figured silkoline in a choice range of patterns. Heavy and warm and filled with pure white cotton. Good quality.

Large Bordered Comforters, Ea. \$2.50

Of silkoline with figured centers and plain colored border. Filled with white medicated cotton. All colors and attractive patterns.

California White Wool Blankets, Extra Large

Warm, fleecy blankets, made on a twill ground. Have neat colored borders and are finished with a silk lining 3 inches wide. A quality that will wear for years and be in every way satisfactory. Be sure to see these. (Main Floor.)

Latest Ideas in Hair Dressing

—are made a special study in our light, airy second floor parlors. All our operators are thorough experts.

New "Spring Maid" Turbanette 50c

You'll want one for this new culture that is so artistic and becoming.

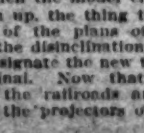

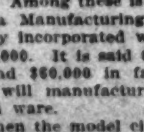

Switches For "Spring Maid" Hairdress \$4.85

Of fine quality human hair, 30 inches long. Come in all shades except gray.

All Around Jaynes \$3.98

Fine quality human hair in all shades excepting gray, only.

Best Shampoo in city, 50c
51 Facial Massage for 50c

Read Rebellion

The Sparkling New Novel by Joseph Medill Patterson

REBELLION is big and strong. It is a story of everyday people in everyday life—honest in its purpose—dealing impartially with the subject of divorce. Four questions it discusses plainly, fully and with absolute fearlessness—

Is Marriage Sacred?
Is Divorce Ever Justified?
Should Those Divorced Feel Free to Marry Again?
Should The Church Decide For The Individual?

It is absorbingly interesting, tremendously emotional, intensely dramatic, vividly realistic, grimly satiric, buoyantly optimistic. A book that grips the attention and makes one think!

(Book Dept., Main Floor.)

Trimmed Hats at \$12.50

Exclusive Types and Models Seen at Hamburger's Only!

The originality here will interest every woman who is trying to decide on a Fall hat. The models show the style and dash that isn't often found in other than Paris hats. Exquisite trimmings of ostrich and feather novelties make them very rich!

The Autumn Neckwear

—is more beautiful than ever! —and today we make a special showing of the very latest ideas. One must have either a Hussar Side Plait Jabot or a Spring Maid Fichu now. Those just received are beautiful. See them today sure.

Spring Maid Fichu at 50c, 75c and \$1.00.
Side Plaits in swiss or net, 35c to \$1.00.

It would seem that this stunning hat had been side-tracked. J. S. Torrance became interested in the model town proposition through the purchase of J. H. Adams & Company, of which he is vice-president, of 400,000 of Dominguez ranch irrigation bonds some time ago. The central pumping station of this water plant will have a daily capacity of 15,000,000 gallons, and its magnitude is the wonder of engineers. Some time ago a part of the Dominguez ranch was acquired by Torrance and associates with a view to establishing a model industrial city. If that project failed they felt that the immense tract would make the land so valuable for agricultural purposes that the investment would be good.

ANNOUNCEMENT EXPECTED.

Now, however, the industrial center idea has met with such hearty approval that it is believed an official announcement of the plans of the promoters will soon be made. The land in question, while having excellent railroad transportation and more offered, borders on what is known as "Nigger Slough," and there is always the probability that the channel from Wilmington may be deepened to admit of the passage of ocean-going vessels.

In return for the land grants to the railroads, they are understood to have agreed to build tracks to tide-water and to business centers. On October 24, terminal freight rates for such intermediate points as the new Dominguez town will go into effect. Homes are to be built for the employees of the various plants, and the industrial city will have a population at the start of from 12,000 to 15,000, it is said. It is understood that no liquor will be sold in the model town from the start.
